- 2 6.5" x 4.5"
- 3 5.5" x 3.5"
- 4 7" x 1.75"
- 5 1.75" x 2.5"

card instructions

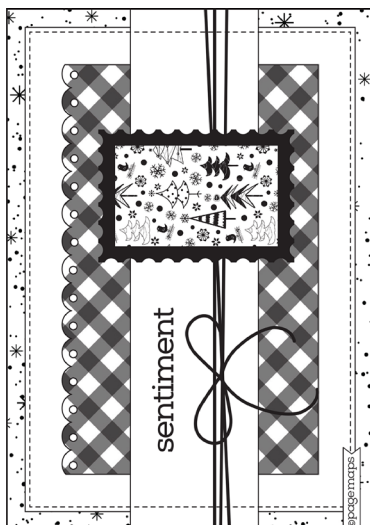

- 1 Open the exclusive electronic die cutting file (wk4/#3).
- 2 Die cut the main file folder from Southport patterned paper. Referring to the template image on page 4, score across the file folder at the notches. With the yellow side facing you, fold the bottom flap up and run a bone folder across the crease.
- 3 Trim a 5.5"x1.5" piece from So Anyway (black side). Adhere the strip across the front flap of the file folder, 1/4" up from the creased edge.
- 4 Trim a 5.5"x1.25" piece of Constantinople (teal side). Adhere the strip to the center of the black strip.
- 5 Apply three black enamel dots to the bottom, left corner of the teal strip.
- 6 Trim 44" of yellow hemp twine. Wrap the twine around the file folder three times, across the center of the teal piece.
- 7 Thread both ends of the twine through the back of a dark orange button. Pull the twine snug so that the file folder remains closed. Tie the twine off in a bow and trim the tails.
- 8 Die cut the tabbed file insert from So Anyway (black side).
- 9 Trim two 4.75"x.25" strips of Fullerton (striped side) with the stripes running vertical.
- 10 Place each strip across the front of the file insert, centering them left to right and approximately 1" apart. Staple each end with a Tiny Attacher or stapler.
- 11 Locate the "you are a great friend" sticker. Apply baby powder to the back of the sticker. Place the sticker across the tab of the black file insert, at an angle, and staple it in place.
- 12 Slide a gift card or cash underneath the strips. Place the file insert inside the file folder.
- 13 Locate the "delightful and so sweet" sticker. Apply baby powder to the back of the sticker. Place the sticker across the tab of the main file folder, at an angle, and staple it in place.
- 14 Attach a mini black paper clip to the right side of the yellow tab.

cutting files

NOTE: exclusive cutting files are provided in .silhouette, .svg, .pdf and .dxf formats, and work with many leading electronic die cutters such as Silhouette, Boss Kut, Scan 'N Cut, Cricuit Explorer and Pazzle. If you do not have an electronic die cutter, you can print this pdf and hand-cut the shapes with a craft knife or small scissors (see note below).

NOTE: When you print these templates, it is important to tell your printer to print at 100% scale. Depending on your printer, this selection may say "Print To Scale," "Do Not Scale" or "Scale 100%." If you do not make this selection in advance of printing, the pdf template will print approximately 3%-5% smaller.
