

Environmental Policy

SCC (S.A.) Pty Ltd. is committed to ensuring due diligence is applied in the provision of services and managing work activities are consistent with the principles of ecologically sustainable development.

We will continually work to identify and minimise environmental risk within all our operations and, wherever practicable, eliminate adverse environmental impacts.

SCC will deliver continuous improvement in environmental performance through:

- Applying the internationally recognised environment management standard ISO 14001:2004 as a model.
- Complying with environmental legislation, regulations, standards and codes of practice relevant to the particular business area as the absolute minimum requirement in each of the service areas in which we operate.
- Eliminating waste in all its forms, by working with our suppliers and customers to ensure efficient use of energy conservation, water minimisation and recycling of waste materials.
- Encouraging a sense of environmental responsibility amongst all workers through training, education and communication;
- Reviewing our processes to develop objectives and targets to minimize the impact on the local environment and develop appropriate programs to achieve these objectives;
- Monitoring and evaluating our environmental initiatives through internal and external audits; and,
- Providing information on the environmental initiatives to clients and workers through relevant publications.

We aim to reach Environmental Excellence in our everyday operations.

Brandon Petty – Managing Director
