

If you or your child suffers from ADD or ADHD, discover a proven, drug-free alternative

Dr. Richard McAlister of Integrative Neurotherapy, LLC will present a free 90 minute informational workshop about a highly effective alternative approach for those struggling with ADD/ADHD. Programs will be held on October 13th and 29th, 7:30 PM at the Comfort Suites Hotel, 555 Old Bridge Turnpike, East Brunswick.

Registration is required so that we may ensure adequate accommodations.

Here's a few of the things you'll learn:

- Details about a powerful, proven and drug-free solution for ADHD recognized by the American Academy of Pediatrics
- How this new program can actually change brain biology for lasting improvement
- Why ADD/ADHD medication only treats the symptoms but never corrects the underlying brain dysfunction
- A recent large-scale government study found that 89% of children who received "optimal medication" and included "intensive parental training" still had moderate to severe ADHD symptom severity and impairment 6 years later!
