STORM & SCREEN DOORS

STORM. SCREEN. DOORS.

STYLE. FUNCTION. DURABILITY.
MAKE AN ENTRANCE.
Quality, Craftsmanship, Style and Innovation

Andersen® storm doors are built with the quality and craftsmanship that you expect from Andersen. With a wide array of style options, Andersen storm doors allow you to enhance your entryway to complement your home. In addition, Andersen storm doors offer many innovative features designed to make them not only easy to use, but also easy to install.
Choose Your Perfect Style

Fullview Interchangeable
Let in the maximum amount of light and air while beautifully framing your entry door. (See pg. 4)

3/4 Light Panel Ventilating
Enhance your entryway with a classic look at an exceptional value with a solid lower embossed panel. (See pg. 8)

Fullview Retractable
Let in an abundance of light while also benefiting from convenient anytime ventilation without having to remove a glass panel. (See pg. 6)

1/2 Light Panel Ventilating
The 1/2 light panel offers traditional style with a solid lower embossed panel. (See pg. 10)

The Andersen Difference

We design our storm doors to make your life easier. Andersen has the styles, options and features to fit your needs.

Quality Hardware
Customize your storm door with a variety of hardware options. Select a finish and style that complements the look of your home.

Reinforced Corners
Built-to-last* construction featuring reinforced metal corner brackets helps the door corners stay square over time for long-lasting smooth operation.

Innovative Quick Change System
Change from insect screen to full glass panel in less than a minute with a simple flip of the handle.

Splineloc® Insect Screen
Has 3x more holding strength than our standard insect screen and a minimal center mullion bar for maximum durability.* Image is for demonstration purposes only. Do not stand on insect screen. Standing on the insect screen may damage the product and is not covered under the Limited Lifetime Warranty.

Easy One-Handed Retractable Insect Screen
Enjoy convenient anytime ventilation with a retractable insect screen that conveniently rolls into the door frame and out of view when not in use.

Time-Saving Installation Systems
Andersen has taken the hassle out of installing a storm door. Install with confidence with our easy and convenient installation systems.

**INSTALLATION**

Rapid Install
See page 12 for details.

MODEL CODE: 6PFSH
We’re taking the hassle out of installing a storm door, so there’s no second-guessing. Just a job well-done the first time.

**Rapid Install 1**

Our Rapid Install 1 door system is the easiest installation option available in the market today. It was designed with the DIY audience in mind. We prehang the door so there is no cutting, minimal drilling and virtually no measuring required. We cut the Z-bars to length, assemble them on the door and drill the handle holes so you don’t have to. Simply take the door out of the package and set it in the opening. The entire install takes less than an hour.*

**Rapid Install 2**

Our Rapid Install 2 door system offers a universally handed option. It was designed with the DIY audience in mind. We provide an unassembled door with Z-bars cut to length to save time on the job site. The process takes less than two hours, and no cutting is required.*

**Pro Install**

Our Pro Install door system was designed with the professional installer in mind. We provide an unassembled door with a Z-bar of 81" that can be cut to length. An adjustable U-channel sweep makes necessary adjustments easy once the door is installed. The handle holes are predrilled to save time on the job, and our twist-to-lock hardware installation makes for a quality, easy install.*

---

### Installation by Door Type

<table>
<thead>
<tr>

<td><strong>10 SERIES</strong></td>
<td><strong>10 SERIES</strong></td>
</tr>
<tr>
<td><strong>8 SERIES</strong></td>
<td><strong>8 SERIES</strong></td>
</tr>
<tr>
<td><strong>6 SERIES</strong></td>
<td><strong>6 SERIES</strong></td>
</tr>
</tbody>
</table>

*Actual tools required will vary between storm door models. See installation guide for details.
Storm Door Measure Guide

1. Check to ensure door opening and trim allow enough space for a storm door.

   **DIMENSION A:** Minimum ¾” width flat trim surfacerequired

   **DIMENSION B:** Minimum 1” trim (brickecmould) depth required

   **DIMENSION C:** Minimum of 2 ½” door frame (jamb) depth required*

   *Note: Depending on the depth and location of your entry door handle set, additional clearance may be needed.

2. Measure door opening in order to determine the size storm door you need.

   **RECORD YOUR SHORTEST WIDTH MEASUREMENT:**

   **W:**

   **RECORD YOUR HEIGHT MEASUREMENT:**

   **H:**

3. Determine the size you need based on the door opening measurements and the storm door model that is selected.

   **STANDARD DOOR SIZE WIDTH RANGES:**

<table>
<thead>
<tr>
<th>WIDTH RANGES:</th>
<th>30”</th>
<th>32”</th>
<th>34”</th>
<th>36”</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 Series &amp; 8 Series Fullview Interchangeable and Fullview Retractable Insect Screen Storm Doors</td>
<td>29 7/8” to 30 3/8”</td>
<td>31 7/8” to 32 3/8”</td>
<td>33 7/8” to 34 3/8”</td>
<td>35 7/8” to 36 3/8”</td>
</tr>
<tr>
<td>6 Series Fullview Interchangeable and Fullview Retractable Insect Screen, all ¾ Light &amp; ½ Light Panel Ventilating</td>
<td>29 3/16” to 30 3/8”</td>
<td>31 3/16” to 32 3/8”</td>
<td>33 3/16” to 34 3/8”</td>
<td>35 3/16” to 36 3/8”</td>
</tr>
</tbody>
</table>

   **STANDARD DOOR SIZE HEIGHT RANGES:**

<table>
<thead>
<tr>
<th>HEIGHT RANGES:</th>
</tr>
</thead>
<tbody>
<tr>
<td>80”</td>
</tr>
<tr>
<td>80” to 80 7/8”</td>
</tr>
</tbody>
</table>

   If your measurements are outside the standard width or height ranges shown above, you will require a custom size door.*

4. Choose the door handing that works best for your entryway.

   **Left Handed (LH)**
   **Right Handed (RH)**

* Select storm door models and select options are not available in custom sizes. Not all storm door models are available.
