The SAFEWARE 8 range of advanced multipoint locks covers door leaf size ranges from 1700mm* to 2210mm* and is available in two lock options:

SAFEWARE 8
5-point lock and latch system

SAFEWARE 8+
5-point lock and latch system with additional top and bottom shootbolts

The range offers exceptional strength and versatility, accommodating a complete range of door leaf height specifications, with or without shootbolts.

The SAFEWARE 8 lock system is manufactured in the UK and has been rigorously tested to meet the performance and security requirements of PAS 23 and PAS 24.

* SAFEWARE 8+ Minimum size: Without shoot bolts, lock centre of 925mm. Maximum size with shoot bolts, lock centre at 1045mm.

Features:
- High-security tandem bolt system
- Stainless main steel components for corrosion resistance
- Unique ‘Operation Assist’ anti-friction pad system
- Advanced ‘Compression Adjust’ system
- Counter-pressing security bolts for anti-lift facility
- Clean face lock - no protruding rollers
- Stainless steel, non-handed flush-line one-piece keep set
- Top and bottom shootbolts - ideal for tall doors & double doors
- Wide range of door heights
- Type-tested to PAS 23 (performance) and PAS 24 (security)
- Meets Police-approved Secured by Design specification
- Manufactured in the UK to ISO 9001:2008
- 10-year mechanical guarantee**

** Subject to terms and conditions.
The SAFEWARE 8 range of advanced multipoint locks has been designed exclusively for Profile 22 to achieve a superior locking solution for PVC-U hinged doors.

Utilising unique anti-friction technology and linear compression bolt-motion, the SAFEWARE 8 range offers smooth and easy operation, providing effortless lock engagement and a greater degree of security than conventional roller and bolt door locks.

Utilising all stainless steel main components, the SAFEWARE 8 range provides excellent durability and corrosion resistance.

High-security tandem bolt system
- Unique, hook and linear bolt combination locking points
- Linear compression bolt motion for smooth operation
- Easier to install and less prone to damage than traditional rollers
- Assists door compression with maximum security
- Allows greater door leaf-to-frame cover with maximum clearance
- 25mm counter- Opposing hook-bolts for anti-lift
- Flush lock face - no protruding rollers
- Secure and robust

Centre hookbolt
- Extra security at door centre
- Provides higher resistance to attack
- 25mm throw hooks maintain anti-separation security at all times

Quick-change reversible latch
- Easily reversible for rapid re-handing
- Dual unsprung followers (split spindle) for interchangeable front & back door applications in one lock
- Handle-driven snib facility - simple latch retaining system to prevent accidental lock-out

Optional shootbolt*
- Optional top and bottom shootbolts to ensure secure and positive leaf engagement at heads and cills
- Ideal for double doors
- Caters for all door heights from short to tall

*SAFEWARE 8+ only

Flush-line one-piece keep set
- Dedicated one-piece keep set for added strength and security
- Die-cast base construction ensures positive and secure fit every time
- Flush-line covers that can be easily removed during door frame installation
- Stainless steel components for exceptional durability and corrosion resistance
- Non-handed for minimal stock-holding

'Compression Adjust' technology
- Advanced 'Compression Adjust' * system for simpler and more effective compression adjustment
- Easily accessible to aid fitting

* Patent applied for

'Operation Assist' anti-friction pads
- Unique 'Operation Assist' anti-friction pad system for significantly reduced operating force
- Smooth and effortless lock engagement

Optional shootbolt
- Optional top and bottom shootbolts to ensure secure and positive leaf engagement at heads and cills
- Ideal for double doors
- Caters for all door heights from short to tall

Single or double shootbolt keep with 'Compression Adjust' system
- Advanced Compression Adjust technology - for single, French or double doors
- Die cast base construction ensures positive and secure fit every time
- Simple and precise
