design stramigioli associati

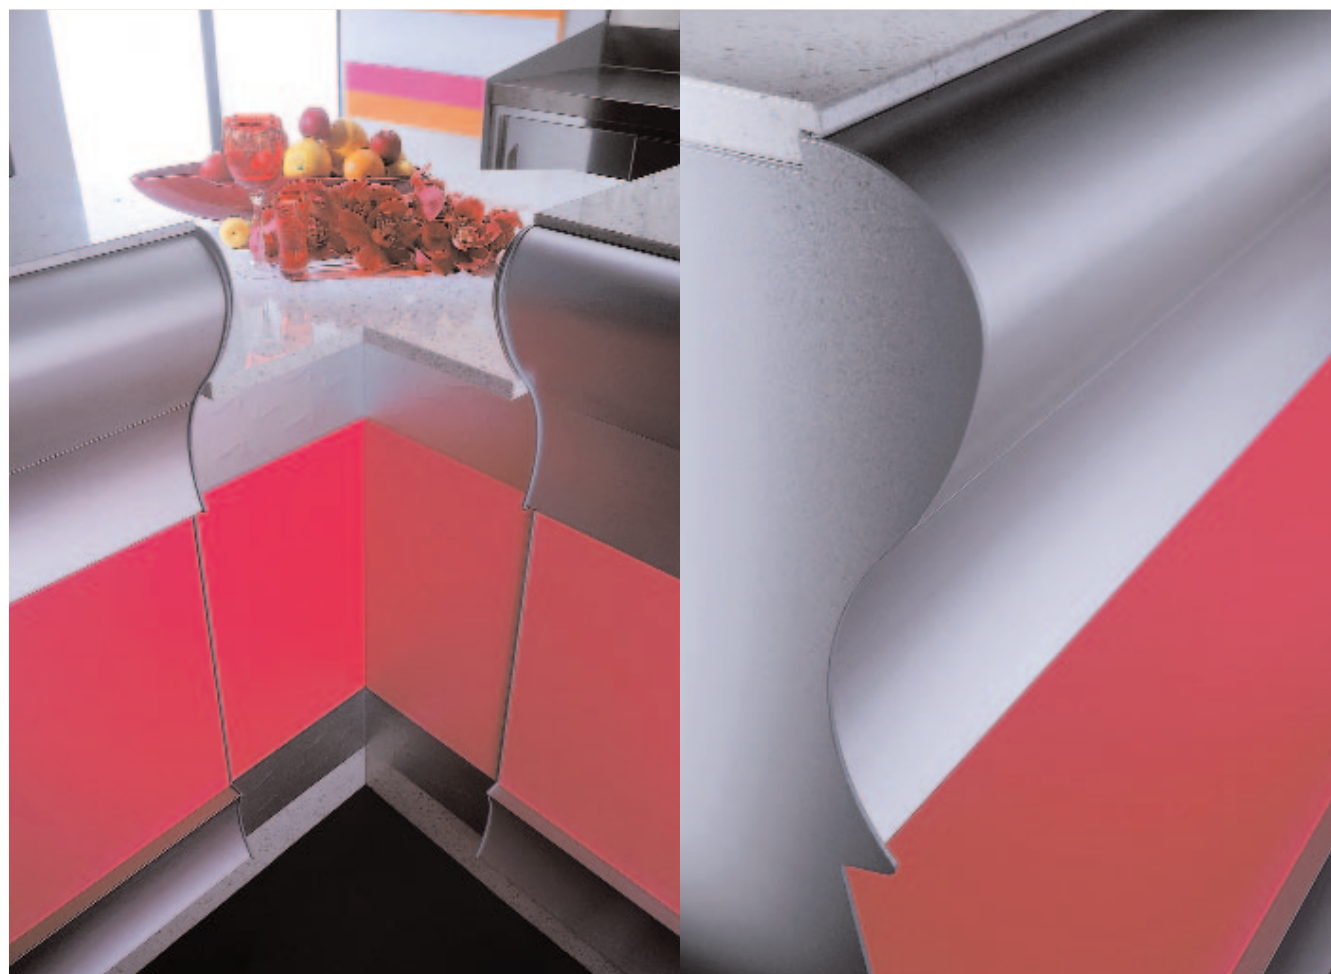

Prezioso in un gesto. Un segno diventa firma, traccia indelebile di importanza: nei materiali, nella tecnologia di precisione dell'alluminio stampato abbinato ai cromatismi dei laminati, nella semplicità di un design pulito, netto, immediatamente riconoscibile.

Precious in a gesture. A sign becomes a signature, an indelible trace of importance: in materials, in the precision technology of moulded aluminium matched with sheet metal chromatics in the simplicity of a clean, clear, immediately recognisable, design.
