CLUE 14

SEWING:

Layout 16 - 2-1/4” X 3-3/4” (E) Rectangles with 32 - 2-1/4” x 2-1/4” (H) Squares. Draw a diagonal line on the back of each of the (H) Squares.

Lay right sides together and sew along the diagonal line.
Trim leaving a 1/4” seam allowance. Press toward the wings. You will have two small triangle cutoffs.

* This is an optional step - Sew these two triangles together, press toward the dark and trim to 1-1/2” x 1-1/2” square. I will be using these half-square triangles in the project, but again, they are optional.

Repeat this step on the other side with the remaining 2-1/4” x 2-1/4” Squares. Trim leaving a 1/4” seam allowance. Press toward the wing.
Make 16 Flying Geese Units. They should measure 2” x 3-1/2” at this point.

You will now have a Flying Goose Unit that is a little oversized. Place your Bloc-Loc ruler on top, making sure you slide it up. Trim two sides rotate the piece and trim the other two sides. You will have a perfect flying goose unit, with a ¼” seam allowance on the top edge. This will ensure you do not lose the point.

*Tip – If you have a rotating cutting mat, this is the perfect time to use it. It will make your trimming go so much faster.

Check Back Tomorrow for Clue 15.
