**CLUE 15**

**SEWING:**

*Sewing*
Sew the 16 Flying Geese Units made in Clue 13 with the 16 Flying Geese Units made in Clue 14 together. Press up toward the top Flying Goose Unit.

Remember to try to sew directly through the intersection on the seams where they cross. It helps to have the intersection marked with a pin so that you can see it and sew right through it. It is important when trimming to make sure you leave a 1/4" seam allowance at the top of your flying geese units.
Make 16 Flying Geese Units. They will measure 3-1/2” x 3-1/2”.

Remember the cutoffs from the Flying Geese Units. You will get 8 of each colorway from each block or a total of 32 more 1-1/2” Half-Square Triangle Blocks.

Check Back Tomorrow for Clue 16.
