

Why Choose Stannah ?

A stairlift can be a big investment, and you will naturally want to carry out some research for yourself. However, we think it's worth every cent to allow you to stay in your own home, rather than relocate. Below are a few reasons as to why so many people think Stannah to be the right choice:

- ✓ Easily folds away when not in use
- ✓ Battery operated, so extremely low running costs
- ✓ Our new 'S600 Straight' stairlift boasts a unique slimline rail, with a '**concealed rack**'. (Probably, the most discreet design on the market today)
- ✓ Seat & footplate can be linked together to avoid any bending down. (Powered options available)
- ✓ The seat can turn at **both** upper & lower landings. Especially useful on a narrow stairs. (Powered option available)
- ✓ To avoid any tripping hazard at the lower landing, our '**retractable rail**' moves automatically with the stairlift, to save you any manual lifting
- ✓ '**Curved**' installations are computer designed & tailor made for an exact fit on the most complicated of stair configurations. The 'twin tube' system provides imperative stability and an unobtrusive look
- ✓ We offer you a choice of chair styles, fabrics & colours, along with varying rail colours to compliment your home and decor
- ✓ Ergonomic controls that can be mounted on either side to suit your needs
- ✓ A Seatbelt, fitted as standard, can fasten & unfasten with only one hand
- ✓ Several safety features to ensure your utmost safety whilst using the stairlift
- ✓ Stannah stairlifts comply with all NZ Safety Standards
- ✓ Hassle free installations within only a few hours. Securing directly to the stairs, there's no need for any additional structural work
- ✓ Designed & manufactured in the United Kingdom
- ✓ A '2-Year Warranty' to give you total confidence and peace of mind

With over 40 years' experience in stairlifts, a family run-company, globally successful and celebrating 150 years in business in 2017, Stannah really is, the right choice
