

Standards for Programs that are currently APA-accredited and wish to accept Argosy transfer students (Path 1).

Instructions: Programs are asked to identify themselves by contacting the Office of Program Consultation and Accreditation to be added to a public list of receiving programs. Receiving programs are then asked to submit responses to these items outlining transfer details and ongoing compliance with the SoA. These responses will be reviewed by the CoA and additional information requested on an as-needed basis. Receiving programs do not have to submit responses before beginning to accept transfer students, but responses must be submitted as soon as possible and no later than 3 months after admitting former Argosy students.

Standard I

1. Has the program's sponsoring institution approved it to receive students and committed the necessary resources to successfully integrate those students?
2. Describe the program's financial, clerical, training, and physical resources and the sufficiency thereof for all students.
3. Describe any existing programmatic or institutional policies and procedures that have been or will be modified to allow the program to receive students (e.g., transfer credit limits, residency requirements).

Standard II

1. Describe the levels of matriculation at which the program is accepting students, and submit a table describing how students at different levels of matriculation are accommodated. This table does not need to describe transfer pathways for individual students.
2. Describe how the receiving program is incorporating students from the closing program, ensuring that all required educational and practical elements required by the SoA are met by the time of program completion – i.e., how is the receiving program ensuring that students at all levels of matriculation successfully attain all PWCs and DSK areas? (II.B)
3. Describe any criteria that incoming transfer students will be required to meet that may be a unique requirement of the receiving program.

Standard III

1. Identify the number of new students that the program is receiving or expects to receive from closing programs. (III.A.1)

Standard IV

1. Provide a listing of any *additional* faculty that the receiving program will employ to meet educational needs of incoming and current students (IV.B). Provide abbreviated CVs as appropriate.

Standard V

1. Describe the process by which incoming students are being informed of the receiving program's policies and procedures. (V.B)

Additional information - in the space below, please include any additional information that would be useful for the CoA as it reviews this proposal:
