

SOFT TISSUE SURGERY

Our experienced veterinarians perform a variety of surgical procedures ranging from desexing to caesarians, enterotomies to cystotomies, lump removals to foreign body removals and everything in between.

ORTHOPAEDIC SURGERY

Our experienced surgeons perform a number of orthopaedic procedures including cruciate ligament repairs, luxating patella repairs, fracture repairs and arthrotomies.

We are extremely fortunate to have access to a world renowned orthopaedic specialist who visits our hospital to perform more complicated procedures.
