

## Annex B -- Compassionate Grounds Exemptions -- Conditions

- Travellers granted approval and limited release from quarantine for compassionate reason are subject to certain conditions. Travellers must:
  - remain in your place of quarantine prior to and immediately following your approved visit(s) to the facility/institution. You must not have any guests in your place of quarantine at any time during the 14-day period
  - only visit the specified facility/institution during the period indicated in your application for limited release and use private transportation when possible for this purpose
  - wear a non-medical mask or face covering upon entry to Canada. During the 14-day period that begins on the day of arrival to Canada, you must wear a non-medical mask or face covering at any time that you are not in your place of quarantine and will maintain physical distancing (2-metre distance), unless the reason for the exemption means that physical distancing is not possible.
  - comply with any requirements or prohibitions set by provincial, territorial and local public health authorities for the prevention of the spread of COVID-19 for the duration of your stay in Canada.
- Recognizing that various facilities (e.g., hospitals, long-term care facilities, other private or public facilities) may have additional restrictions in place to limit entry, the approval letters also contain the following language:

*This limited release is only applicable to federal quarantine requirements. Provinces, territories, municipalities, public facilities and private venues may have additional restrictions on your ability to visit certain locations during the 14-day period following your entry to Canada. You are encouraged to consult with the applicable province/territory AND/OR private/public facility for any additional restrictions regarding mandatory quarantine, as any stricter measures will apply.*
