

COURSE OUTLINE

COURSE TITLE: Safeguarding Children & Young People Online.
Child Exploitation to Cyberbullying to Online Reputation
COURSE LEVEL: 3

DURATION: One day

Introduction

Safety online is a relatively new worry for adults who care for children. The course aims to give good clear information about what the online world is, how it functions and where it might be going. The course aims to help carers understand the risks and give advice and guidance about how to reduce these risks and dangers.

Benefits of Attending

The course give learners a range of strategies about keeping children and young people safe as well as alerting carers to dangers they know little about. It aims to keep these dangers and risks in proportion and to help carers understand how to help and support young people to keep themselves safe. The course offers many opportunities for discussion and questions around this often misunderstood and complex subject.

Programme Highlights

The course highlights specific dangers and risks and looks at ways of recognising signs and symptoms for when things start to go wrong. The course will suggest that technological safety mechanisms are far less useful than behaviour solutions. The course stresses education and also looks at way we as adults can protect ourselves

Who Should Attend

Any carer

Special Notes

Safeguarding Children & Young People Online

Learning outcomes
