Press Release: 12-15-15

FOR IMMEDIATE RELEASE: **MAY THROUGH AUGUST**

On Sunday, December 13th, 2015, five graduates will be screening their senior thesis films alongside four animated shorts. This screening is called "College Debt Film Screening" and is being held at the Jean Runyon Little Theater at Memorial Auditorium, 1515 J Street, Sacramento, CA 95814 at 7:00PM.

These graduates are from the Digital Filmmaking and Video Production major at the Art Institute of California, Sacramento. This program requires the students to complete a senior thesis film. The students must enter the first of three thesis classes with a script prepared, and the faculty must approve the project before the student is allowed to continue. The students then enter a vigorous nine month process that consists of three separate classes the student must pass. This screening is the final checkpoint for the third class.

Carlie Guadagnolo is one of five graduates screening at the College Debt Film Screening. She discovered a love for cameras at a young age, often taking charge of filming family parties with an old camcorder. With her Bachelor's of Science in Digital Filmmaking and Video Production, Carlie plans to work as a wedding videographer in the Northern California area. Her film, May Through August, is about reconnecting with old friends and lovers before it's too late. The film starred several local actors and was filmed in Sacramento and Elk Grove.
