

Double Sheet Ravioli Former RCA 540 C

The RCA 540 C is a machine for the production of double-sheet ravioli, in different shapes. Suited to large scale production can be used as part of a continuous production line. The system to distribute the filling with rods guarantees the perfect pinching of the raviolo even with fat filling. The technical solutions adopted and the frame fully in stainless steel have allowed to realize a reliable machine with reduced maintenance requirements, washable with steam jets or pressured water.

Main technical features:

- Interchangeable dies with different shapes: square, round, half-moon; special shapes on request.
- Mechanical device to extract the raviolo from the cutting roller.
- Continuous filling feeder device set on castors with quick release for cleaning.
- Filling distributing system by rods with **single injector**.
- Overlapped twin laminating rollers. Independent speed and sheet thickness adjustment.
- Automatic conveyor belts feeding from the rollers to the die.
- Outfeed conveyor belt.
- Adjustable machine, filling feeder, calibrating rollers and conveyor belts speed by electronic variator.
- Motor-gearbox and bearings lubricated for life.
- Cams and gears casehardened and tempered.
- Operating panel with all command, control, adjustment and alarm devices.
- Separate electrical stainless steel cabinet; operation logic controlled by PLC.

On request:

- Scraps cutter and recovery device.

Machine	Unit	RCA 540 C
Hourly Output	Kg	450 - 800
Sheet Width	mm.	540
Size	mm.	1800 x 1490 x 1840
