ABOUT THE SOCIETY FOR
SPORT, EXERCISE & PERFORMANCE PSYCHOLOGY

Mission Statement
APA Society for Sport, Exercise & Performance Psychology is a professional organization whose members are engaged in the science and practice of psychology within sport, exercise, and human performance. The division develops, promotes, and disseminates information to professionals and the public related to: 1) standards for competent and ethical practice, 2) models of graduate and post-doctoral training, and 3) scientific knowledge that informs and guides practice.

Benefits of Membership in the Society for Sport, Exercise & Performance Psychology (SEPP)
Benefits in SEPP are both tangible and intangible. The tangible benefits include subscriptions to the Exercise and Sport Psychology Newsletter and the Sport, Exercise, and Performance Psychology journal. The intangibles involve a sense of identity and community with colleagues who share a commitment to exercise and sport psychology. This sense of community is fostered by the division’s email list, sponsorship of programs at the APA Annual Convention, and involvement with various Society committee service and awards. For those interested in running, the APA Running Psychologists is section 1 of Division 47 and sponsors the annual Ray’s Race at the APA convention. Section 2 is Performance Psychology, which brings together those interested in research, teaching, and practice related to the psychological aspects of performers such as athletes, performing artists, business leaders, and professionals in high-risk occupations.
