

DOCUMENT VIEWER

for SuperOffice®

 SuperOffice® Certified Software Partner

**VIEW YOUR
SUPEROFFICE
DOCUMENTS &
EMAILS QUICKLY
WITHOUT
DOWNLOADING**

QUICKLY VIEW YOUR SUPEROFFICE® DOCUMENTS & EMAILS.

How it works

With just two clicks, you will be able to set up **Document Viewer** directly in **SuperOffice®**. As soon as a document line is selected in SuperOffice, the document, image or email will appear in the mini card. **Without downloading** the document to your local computer.

Creating and archiving new documents and emails is easy in SuperOffice. **Finding** and recognizing which document is which later on, can be more of a challenge. You may find yourself opening several documents to find the right one.

The more documents and emails, the more time it takes. **Document Viewer for SuperOffice** seamlessly integrates into your SuperOffice CRM environment and enables you to **quickly view** the selected document without downloading. The lightweight viewer offers various **navigation tools** within the document or email. A download button enables you to convert the current viewed document or email as a PDF file when needed.

For pricing or more product information, please go to documentviewer.infobridgeuniverse.com or give us a call at **+31 (0) 73 627 27 10**.

See your documents or emails with one click. No downloading.

Search documents and emails to find the important information you need.

Quickly view the selected document or email without waiting.
