

We Are Seeking Electricians

We are currently looking for qualified and experienced electricians to join us. If you would like to join one of Cambridge's longest established electrical contractors - give us a call - or complete the contact form.

We are currently looking for

Senior Electricians

Job Description:

In this varied role as a senior electrician working for Thompson Electrical you will be capable of carrying out your role in an autonomous and competent manner and within an allotted time, the installation, commissioning and maintenance of low voltage electrical and electronic systems including wiring of power & lighting circuits, fire alarms, boiler systems, and associated testing of these installations. This will also include the on-site managing of small to medium sized jobs, including material selection and ordering as well as man management.

Responsibilities:

You will be responsible for and advising on all technical and general issues associated with each job you are assigned, including suitability of design and location of fittings and fixtures, receiving and checking of materials, and recording of delivery documents. You will responsible for reporting any changes that are made to jobs from original estimates and the recording of these extras. Monitor and report on any O.H. & S issues on your site regarding safe working and protection of others from injury due to the work we conduct. You will also be responsible for the general up keep of you works van and any company equipment issued to you ensuring it is fully maintained and secured against theft or use by others on or off site.
