

Certificate of "Made in U.S.A." Compliance

This is to certify that CrossWind Machining, Inc., in my opinion, is:

- (1) a domestic U.S. manufacturer of goods,
- (2) is sufficiently aware of the federal law governing unqualified "Made in U.S.A." claims to make such claims, and
- (3) is a U.S.A. manufacturer of products wholly made in the U.S.A. of domestic raw materials and as such is qualified to label those products "Made in U.S.A."

This Certification is dated November 25, 2020, and will be valid November 25, 2019, through November 24, 2021, as regards the goods manufactured in the U.S. using the manufacturing processes as represented to me by CrossWind Machining, Inc.
