

## THE NUMBERS GAME

I must accept  
That I was never  
Number one

Even before  
There were others  
In the mix  
I was not destined  
To be number one

Even before  
I was hatched  
I was not meant  
To be anyone's true  
Pride and joy

Number one  
Means you are  
The epicenter  
Of someone's universe  
What feat must one achieve  
To be another's  
Center of the world

Some achieve that  
Before they are born  
And I  
Am envious
