July 2020
MODIFIED ROUTE INFORMATION TO PHARMACIES IN ISLAND COUNTY

Island Transit is operating on a new Modified Service Plan to provide the community with more access to public transit as Island County advances to Phase 3 of Washington’s Safe Start plan during the COVID-19 pandemic. The Modified Service Plan provides more service than has been available since March, and shifts some resources to high-demand areas to better serve the community.

Below is bus route information to Island County pharmacies with links to current emergency schedule information. Please call the pharmacy directly to check on current hours of operation. During COVID-19, pharmacy hours may have changed. Check the current route and schedule information on Island Transit’s website to plan your trip.
