15 SERIES FIELD GRAINBELTS

Unmatched versatility, economy, and speed. Available in both Top Drive and S-Drive configurations, these GrainBelts are simply the fastest and most efficient conveyors in their class.

Gentle Handling
Brandt’s Field GrainBelts make it easy to move large quantities of grain with the powerful combination of speed, gentleness and versatility. Whether you want to move grain from a truck to an air cart or from a storage system to a transport truck, a Field GrainBelt can handle the job with ease. Engineered to get the job done quickly and carefully, Field GrainBelts protect your seed investment and maintain grain quality, all while moving robust capacities. Brandt’s Field GrainBelts ensure you get the job done fast. Durable and easy to transport, these conveyors come in a variety of configurations to meet your grain handling needs.

Powerful & Versatile
STAY ON TRAK
Brandt’s EZTRAK tensioning and tracking system keeps your belt aligned and properly tensioned at all times. A patented steel envelope keeps the belt aligned while the heavy duty springs maintain consistent belt tension. The visual tension indicator makes it easy to see when adjustment is needed.

COMPACT VERSATILITY
The unique low profile hopper is only 8 inches high collapsed and extends up to 16 inches. This allows for easy under-bin positioning.

**That Extra Punch**

If the 15 Series isn’t enough for your farming operation, Brandt’s 20 inch big brother is the belt for you. By adding another five inches to the belt width and increasing belt wrap, the 2045LP delivers a whopping 14,000 bu/hr using a 35 horsepower diesel engine. Get even better capacity and efficiency by upgrading to a diesel drive.

**Versatile Utility**

Brandt’s low profile hopper easily fits under center dump grain trucks, hopper bottom bins and center bin unload systems so you can use it anywhere. The 16 inch tall hopper collapses down to 9.5 inches to fit under whatever you need to unload.

**20 SERIES FIELD GRAINBELTS**

Leave competitors in the dust.

This is the fastest conveyor we’ve ever built, and unlike competitors, it’ll achieve maximum capacity even at truck loading height.
The EZMOVE Mover System with joystick controlled hydraulic steering does the heavy lifting for you. An integrated mover system that is designed to work both in the yard and out in the field to make your job easier.

The Brandt EZMOVE Mover System allows the operator to effortlessly move GrainBelts around the yard with improved control. The Brandt EZMOVE Mover System fits 15 and 20 Series S-Drive Field GrainBelts, 15 Series Harvest GrainBelts, and the 20 Series GrainDeck.

**Less Effort, More Results**

**EFFORTLESS HYDRAULIC POWER STEERING**
The exclusive joystick controlled power steering delivers improved control with less effort. Deep treaded tires keep traction and stability in all terrain.

**EASY TO USE**
The mover speed can be precisely adjusted using a simple ball valve control. All Brandt EZMOVE systems come standard hydraulic winch and intake lift cylinder.

**PRODUCT FEATURES**

- **HYDRAULIC POWER STEERING**
- **DEEP TREAD STEERING TIRES**
- **JOYSTICK CONTROL**

**AVAILABLE ON**

**Field GrainBelts:**
- 1535LP, 1545LP, 1537LP+, 1547LP+, 2045LP, 2055LP

**Harvest GrainBelts:**
- 1575, 1585

**GrainDeck**
15 SERIES HARVEST GRAINBELTS
Conveys superior versatility and mobility.
Designed to make things easier, the 15 Series is available with gas drive and EZMOVE that provides complete mobility without the need for a tractor. Convenience, ease, and productivity…delivered.

Brandt Harvest GrainBelts are a fast, worry free grain handling solution that save time and money. Gentle and quiet, Brandt Harvest GrainBelts move all your commodities faster than you ever thought possible.

Long-Lasting Capacity
The 1575 and 1585 Harvest GrainBelts use a 15 inch belt to move up to 6,000 bushels per hour, and are available with Brandt’s EZMOVE mover system. For more capacity, the 2095 and 20110 gently handle product at up to 12,000 bushels per hour and have more reach for use with larger bins.

HIGH TRACTION S-DRIVE
Brandt GrainBelts are high capacity grain handling machines with innovative S-drive technology that provides 270 degrees of wrap for increased surface contact between the belting and the vulcanized drive roller.

Models: 1575, 1585

EZMOVE
20 SERIES HARVEST GRAINBELTS

Built-in brawn.
When fast just isn't fast enough, this brute is designed to deliver maximum conveying capacity and features fully enclosed wind guards.

Keep on Trak
SIMPLE ALLIGNMENT
Brandt’s patented EZTRAK system uses both a spring loaded belt tensioner and a steel envelope to eliminate slippage and ensure total control of any belt movement. This prevents the risk of damage to your GrainBelt.

CONSTANT TENSION
An external tension gauge works with the EZTRAK system in order to ensure and maintain proper belt tension; resulting in longer belt and bearing life. The unique two-way, spring loaded tensioner maintains correct tension under all load conditions reducing the frequency of adjustment.

Capacity Calmed
SYNCHRONOUS BELT DRIVE
Brandt GrainBelts use a synchronous belt drive system that is significantly quieter during operation, longer lasting and requires less maintenance than a chain drive system. The system times the double drive rollers perfectly to rotate at the same speed for consistent wrap and tension on the belt.

Models: 2095, 20110

20 Series Harvest GrainBelt

20 SERIES GRAINDECKS

Portable pit = productivity.
The Brandt GrainDeck is a portable grain pit designed to boost your productivity. You simply drive your truck over the GrainDeck and unload, eliminating the need to position a hopper under the truck multiple times.

Drive Over, Drive Away
The 20 inch belt has a capacity over 12,000 bushels per hour; saving you time and getting your trucks back to the field faster. With convenient single set up positioning, the GrainDeck makes the job easy. Once in place, drivers can easily line up their trucks over the deck for quick and easy grain unloading without ever having to reposition the hopper.

Compact Capacity
LOW DECK HEIGHT
Trucks can easily clear the Brandt GrainDeck’s low 5 ¼ inch deck height.

WIDE, COLLAPSIBLE HOPPER
At 38” by 118”, the robust GrainDeck minimizes spillage and maximizes efficiency. Equipped with spring assisted collapsible hopper flaps, the GrainDeck works with all truck and trailer types to catch and move your grain quickly and efficiently.

Efficiently Versatile
Brandt has developed a bunker kit which allows you to convert the GrainDeck and the 20 Series Field GrainBelt to move in unison along your grain pile.

EZMOVE
The Brandt GrainDeck EZMOVE allows the operator to move the GrainDeck around the yard with ease. With the simple hydraulic joy stick control, the EZMOVE system is extremely operator friendly while positioning your GrainDeck.

The Ultimate Piling Team
Brandt’s exclusive Bunker Kit allows you to hydraulically convert the GrainDeck and 20 Series Field GrainBelt to move in unison at 90 degrees to your grain pile. By simply hitting your hydraulic lever on the tractor and attaching cables you can move the unit alongside the bunker without having to unhook and reposition each piece separately.
TRANSFER GRAINBELTS

Maximize speed, gentleness and versatility.

Combine your Harvest GrainBelt with a Transfer GrainBelt for an unbeatable combination of speed, gentleness, and versatility.

The Perfect Team

Small and compact, Brandt Transfer GrainBelts can be used independently or as a swing to feed your Harvest GrainBelt. Team your 15” or 20” Harvest GrainBelt up with a 1515 or a 2021 transfer conveyor for an unbeatable combination of speed, gentleness and versatility while unloading trucks, gravity wagons and belly dump trailers. Multiple drive systems and the optional lift arm kit, create the set up you need for maximum efficiency and less hassle.

### Technical Specifications

1. Standardized test capacities, actual results vary by crop and moisture conditions.
2. Capacity is achieved with 33hp diesel engine (Gas engine yields 12,000 bu/hr)
3. SAE J1940 Gross Engine Horsepower
4. Using the 25hp engine will result in a 7,500 bu/hr capacity
5. Using the low horsepower electric motor option will reduce capacity to 4,500 bu/hr
6. Lower HP engine yields approx. 20% less capacity
7. Hydraulic Top Drive capacity is rated at 3,200 bu/hr and will vary depending on tractor hydraulic capabilities
# Sizing your GrainBelt

GrainBelt Length = \[(\text{Eave Height} \times 2) + \text{Bin Diameter} \times 0.58\]

**Step 1.** Determine the distance from the ground to the eave (Y) and multiply by 2

**Step 2.** Determine the diameter of the bin (X) and multiply by 0.58

**Step 3.** Add the results from Step 1 and Step 2.

**Step 4.** The resulting number is the approximate length of GrainBelt required. (Use the next longer length of GrainBelt available)

About Brandt Group of Companies

Brandt manufactures premium grain-handling equipment for progressive farmers focused on solid, proven value. Our legendary dependability, capacity, speed, and overall cost-efficiency have made Brandt the choice for discerning farmers for more than 80 years, across 20 countries worldwide. Brandt Agricultural Products Ltd. is part of the Brandt Group of Companies, with diverse operations that serve the agriculture, construction, forestry, rail, mining, tube & pipe, and positioning technology sectors. Brandt also develops and manages commercial real estate, and operates the world’s largest privately held construction & forestry dealer group. For more information about Brandt, visit brandt.ca.
