## RST 2017

Welcome to RST's 2017 catalogue, inside you'll find what I am proud to say is RST's greatest collection ever. We've been working harder than ever to produce what we are sure is the best range of motorcycling kit available anywhere in the world.

RST can trace its history right back to 1988, when the brand Rhino entered the market producing a range of black leather jackets and gloves; however the RST story really starts in 1999 the team behind RST recognised the need for a range of sports leathers and textiles offering great style but importantly exceptional value. At the time only premium brands were offering garments that serious riders would wear and these came with a hefty price tag. From the start RST has had one mission, and that is to provide the motorcyclist with apparel offering the highest technical quality with the greatest possible value.

The small RST design and development team have been there right from the start, and are all passionate motorcyclists (in-fact the whole team at RST ride!). This passion for two wheels can be seen and felt in every garment RST produce. The development team work to one simple mantra; every single thing we produce we would be proud to wear.

The three simple letters of RST represent the true values of the brand, Race / Sport / Tour. Although RST's roots are firmly as a sports brand, our dedication to all forms of motorcycling can be seen in the wide range of riding apparel RST manufactures, from one piece race suits used at the highest level of racing, adventure kit put through its paces by riders in the worlds toughest conditions, touring kit designed to cope with the best and worst of British weather, to our Classic collection combining retro style with the latest technology.

RST is the UK's number one motorcycle clothing and apparel brand, and has a massive presence in Australia, New Zealand and South Africa. RST has just partnered with world-renowned distributor Bihr to take RST into new markets across Europe.

In 2015 RST became the Official Safety Partner of the Isle of Man TT, this was a watershed moment for RST and is something of which we are all incredibly proud. The Isle of Man TT is without doubt the world's toughest and demanding race, pitting riders against the legendary 37.75 mile mountain circuit. The riders at the TT demand the highest level of kit, and RST is proud to sponsor a host of TT legends, including 13 times winner Ian Hutchinson. As Official Safety Partner RST also equip the traveling marshals, a group of 7 ex-racers that marshal the event on board their Honda Fireblades, and are dispatched, at race speeds to any incident around the course.

RST's mission remains constant, and it's drive to produce the highest specification – greatest value range of products has made it, in a short time, the UK's no' 1 motorcycle apparel brand...

I hope you have as much fun riding in RST as we have designing, developing and testing our products to the limit! Be sure to share your stories with us through our social media channels!

# PRO SERIES CPX-C II 1PC

The RST Race Dept have been busy throughout 2016 developing our new Pro Series CPX-C II suit, with feedback from our elite riders like Alex Lowes in WSB and MotoGP, Richard Cooper in BSB and Ian Hutchinson at the TT. We've made some substantial upgrades with the fit and ergonomics of the Pro-Series CPX-C II and added removable elbow sliders. RST's director Jonny Towers has put in hundreds of hours testing the revised suit to verify the upgrades. These are not only felt when wearing the suit but are also evident from the appearance, i.e. the enlarged stretch panels and more aggressively cut legs and arms make it easier than ever to move around on the bike. This means you can literally race straight out of the bag with no breaking in time required. Try a Pro Series CPX-C II on and you'll see why it's the most popular suit in the BSB paddock!

Model: 1840 SRP: £659.99

PRO SERIES 1840 CPXC II LTHR SUIT	38	40	42	44	46	48	50
NEON GREEN, R.O RED, BLUE, WHITE, BLACK							

# BLACK SERIES II 1PC

The Black Series II is a professional level race suit combining subtle styling with full factory specification. We've constructed the Black Series from a matt finish version of our top quality drum-dyed full grain cowhide and used tone-on-tone detailing to give it a subtle under the radar finish. To complement the leather we've even made the carbon sliders matt finish.

Model: 1042 SRP: £659.99

BLACK	■	■	■	■	■	■

# TRACTECH EVO II 1PC

At home on the road or the track, the TracTech Evo-II suit has everything the most demanding rider could require. The TracTech Evo-II is fitted with our Contour Plus CE certified level 1 back protector and has our improved CPX TPU shoulder sliders. The RST development team have done countless laps in the TracTech Evo-II to develop its track credentials, however one import feature that has been built into the TracTech Evo-II is real world comfort, so not only will the suit feel great on track but you can wear it all day too.

Model: 1415 SRP: £499.99, Model: 1415-J JNR SRP: £399.99

# R-16 1PC

Offering exceptional value, the R-16 suit has all the important bases covered, we've cut the R-16 to be a true all-rounder, it has a less aggressive stance than our Pro Series CPX-C II and TracTech Evo-II suits so comfort isn't compromised when riding in a more upright position. Don't be fooled by the price though, we use the same top quality leather, thread, stitching and 4way stretch in the R-16 as you'll find on Pro Series CPX-C II and TracTech Evo-II suits.

Model: 1067 SRP: £349.99

LEATHER JKT & JN

# PRO SERIES CPX-C JKT & JN

Inspired by the Pro Series one piece suit, the CPX-C sports leather jacket is fitted with CPX-C carbon shoulder and elbow sliders and also has a full size race hump. The CPX-C uses our profile race fit; this makes for a jacket that's supremely comfortable on sports bikes where your riding position is towards the front of the bike. Match this to the CPX-C sports leather jeans for the perfect high performance combination.

Model: 1034 JKT SRP: £339.99, Model: 1058 JN SRP: £249.99

We've used the same matt finish version of our top quality drum-dyed full grain cowhide as we use in the Black Series II one piece suit, we have teamed this up with our matt finish CPX-C carbon shoulder sliders and tone-on-tone detailing. This gives the jacket the high end looks to match its specification. The Black Series is a sports jacket for the discerning rider that demands only the best.

**Model: 1043 SRP: £339.99**

A man with short dark hair and a beard is shown from the waist up, sitting on a motorcycle. He is wearing a black leather motorcycle suit with visible stitching and protective padding on the shoulders and elbows. The suit has "DUCATI" and "MOTOCROSS" branding on the shoulder. He is looking back over his left shoulder towards the camera. The motorcycle's handlebars and a "BRIDGESTONE" logo are visible in the lower left. The background is a bright, slightly overcast sky.

The full-length jacket can be worn on its own, or matched to the TracTech Evo-II jean to make a great sports combination. Don't forget to add the TracTech Evo boot and glove to be ready for any type of riding. The TracTech Evo collection will get you to work on a Monday morning, out for a blast on a Friday night and then to your trackday at the weekend! Truly a jacket and jean combo made for the real world sports rider.

Our design and development team had a really tough job with the Blade II. As our best-selling leather jacket, the Blade had a reputation for being an impeccable all round jacket and jean, so we set out to improve and upgrade the Blade rather than starting from scratch. We've used the same block but added loads of details, including a full length side stretch panel to the jacket, this gives more flexibility and helps with the fit of the jacket. We've added perforation-in-panel ventilation for improved seam strength, a level 2 CE certified back protector as standard and inspired by our racing leathers we've built in TPU shoulder sliders to aid with collarbone protection.

We've stripped out the frills but kept the core RST features of top quality leather, triple stitched seams and a suite of CE armour on the R-16 to offer an amazing value leather jacket and jean. The R-16 is cut for the road and as such is a very comfortable and functional jacket and jean that won't let you down where it counts. The R-16 jacket can be easily upgraded with the addition of our RST Contour Plus CE certified level 1 or level 2 back protector (available separately).

CLASSIC JKT

# INTERSTATE IV JKT

Built from the highest quality matt-finish cowhide, the Interstate IV jacket is a true classic. The jacket not only looks great, but feels great to wear. RST Contour Plus CE armour in the shoulders and elbows gives you protection without compromising the style. The arms are cut with riding in mind, so you know you'll be in comfort however you chose to wear the Interstate (on the bike or down the pub!). The classic look of the jacket is finished off with a rolled leather collar and vintage style MAX zips.

# CORNISH WORKS

## RETRO TT II<sub>JKT</sub>

Inspired from our Official Safety Partner status with the Isle of Man Classic TT, the Classic TT Retro II jacket has a style that harks back to the days of the 'ton up boys'. Created in ultra-soft drum dyed aniline leather featuring period details such as quilted leather panels, vintage style zip fasteners and adjustable waist buckles that really add to the retro feel. The inclusion as standard of CE approved armour in the shoulder and elbow areas with the option of adding the RST Contour Plus CE approved level 1 or level 2 back protector (available separately) provides the wearer with a modern day safety specification. Retro in style - not in safety.

Model: 1834 JKT SRP: £249.99

# ROADSTER II JKT

Constructed from the finest drum-dyed aniline leather to provide an exceptionally soft feel, the Roadster II jacket looks as cool off the bike as it does on. But this jacket is no pretender... Packed full of features such as our double-triple seams stitched with our ultra-strong bonded, twisted nylon thread. It includes CE approved armour in the shoulders and elbow as standard and with the option of adding an RST Contour Plus CE approved level 1 or level 2 back protector it is a genuine riding jacket. It may look vintage but it packs a technical specification that is bang up to date.

Model: 1833 JKT SRP: £249.99

1833 ROADSTER II LTHR JKT	38	40	42	44	46	48	50	52	54
VINTAGE BLACK, TOBACCO BROWN									

# CRUZ JKT

The Cruz jacket has been inspired by jackets from the 1950's with a retro turned-over collar, vintage effect metal zips and quilted detailing to the leather at the top of the arms. For added comfort we've used a finely perforated leather up the side and under the arms of the jacket; this not only helps keep the jacket vented it also reduces weight and aids riding comfort.

Model: 1052 JKT SRP: £169.99

1834 CRUZ JKT	40	42	44	46	48	50	52

# TEXTILE JKT & JN

# ADVENTURE III JKT & JN

The RST Adventure series has gained a reputation for ultimate versatility in all conditions, so rather than starting afresh we've added some extra features to the Adventure III to make it even better! We've had some RST users really push the Adventure to the maximum riding in the Australian Outback. From their feedback we have added large external TPU shoulder protectors, we've improved the parachute strap (this is a strap that goes under the crotch to stop the jacket lifting when riding stood up, please don't jump out of a plane in the Adventure!) and made subtle improvements to the fit of both the jacket and jean. You'll find multiple large adjustable vented panels, a removable thermal lining, and separate removable waterproof lining, so from the depths of a Scottish winter to the heat of the Australian outback, wherever and whenever you ride, the Adventure has you covered.

# PARAGON V JKT & JN

We've had our work cut out improving the Paragon jacket, but now in its 5th generation we've raised the bar yet again. The Paragon jacket and jean are a touring riders dream, constructed from Teflon coated Maxtex and Ballistic with our SinAqua waterproof membrane on the inside. So you have the benefit of a water resistant outer combined with the waterproof and breathable membrane on the inside. We're also using waterproof zips throughout, and the main entry is double zipped with a gutter system inside too! On the inside you have a removable full-length quilted jacket to keep you really warm as well as dry on even the worst of days.

# VENTILATOR V JKT & JN

Don't be fooled by the name, as you would guess the Ventilator V is at heart a mesh jacket and jean perfect for hot summer days. But to match the full range of conditions the weather can throw at you (we know you can't trust the weather man!) We've given the Ventilator an all season treatment, with 4 separate set-ups; and when we say 4 set-ups for 4 seasons we really mean it;

- 1: outer+waterproof+thermal (winter)
- 2: outer+waterproof (autumn)
- 3: outer+thermal (spring)
- 4: outer (summer)

Truly a jacket and jean for all occasions!

Model: 1702 JKT SRP: £179.99 Model: 1703 JN SRP: £149.99

The Pro Series CPX-C Sport jacket packs all the features of the CPX-C Vented model in to a non-mesh, solid shell jacket. The CPX-C is tailored to be comfy in a sports riding position, in fact we have used the same fit profile as our CPX-C leather jacket. As well as the sports fit the CPX-C has been fitted with two important sports riding features; the first is an aerodynamic hump and the second the inclusion of our carbon CPX-C shoulder sliders.

Model: 1722 JKT SRP: £169.99

1722 PRO SERIES CPX-C SPORT TEX JKT	40	42	44	46	48	50	52
BLACK, WHITE, BLUE, RED, FLO YELLOW							

# PRO SERIES CPX-C VENTED JKT

The Pro Series CPX-C Vented jacket shares many features and fabrics we use in our super successful Ventilator V jacket. It uses the same high flow K492 mesh in the core body, inner arm and central back areas of the jacket. It also shares the same removable, breathable waterproof and thermal liner technology to make this an incredibly versatile sport riding jacket for all weathers. The CPX-C Vented is tailored to be comfy in a sports riding position, in fact we have used the same fit profile as our CPX-C leather jacket. As well as the sports fit the CPX-C Vented has been fitted with two important sports riding features; the first is an aerodynamic hump and the second the inclusion of our carbon CPX-C shoulder sliders.

Model: 1723 JKT SRP: £189.99

# TRACTECH EVO II JKT

We've re-thought the sports textile jacket with the Tractech Evo-II. It might not be obvious from the front, but check out the back and you'll see that we have really cranked up the sports credentials of the Tractech Evo-II by fitting a race hump! It not only looks factory but really helps with the aerodynamics when you're in the tuck position, keeping the jacket from flapping at high speed and helping with the stability of your helmet.

Model: 1397 JKT SRP: £159.99

TRACTECH EVO II TEX JKT 1397	38	40	42	44	46	48	50

					52	54	56
							

As with its leather counterpart our design and development team had a really tough job with the Blade II. As our best-selling textile WP jacket/jean combo the Blade already has a feature list far outclassing the competition, so we set out to improve and upgrade the Blade rather than starting from scratch. We've used the same block as the original Blade but added loads of details, including built in TPU shoulder sliders to aid with collarbone protection. As you would expect the Blade comes with a full suite of Contour Plus CE approved armour, including a CE level 2 certified back protector. We also use our proven SinAqua waterproof and breathable membrane so when you've got the jacket and jean connected you're sure to stay protected from the elements!

# R-16 JKT

As part of the R-16 collection the textile jacket shares its leather compatriots smart sport styling combined with exceptional value. A great first set of kit, R-16 has everything a sports rider needs. R-16's fixed thermal lining is matched with our SinAqua waterproof, breathable membrane to cope with all the elements. Fitted with our heavy duty Max 360 degree connection zip means you can wear the R-16 connected to any textile or leather RST jean. R-16 features Contour Plus CE armour in the shoulders and elbows as standard and has the option to be upgraded with a CE level 1 or level 2 certified back protector (available separately).

Model: 1061 JKT SRP: £109.99

1061 R-16 TEX JKT	40	42	44	46	48	50	52
BLACK, WHITE, BLUE, RED, FLO YELLOW							

Designed for the (British) summer, the Spectre features large K300 mesh panels on the chest, back and down the arms. Reflective detailing, piping and logos add to its safety credentials. Inside we've fitted Contour Plus CE shoulder and elbow armour with a pocket to upgrade the Spectre with our RST Contour Plus CE approved level 1 or level 2 back protector. Fitted with our heavy duty Max 360 degree connection zip also means you can wear the Spectre connected to any textile or leather RST jean. The main feature that makes the Spectre stand out in the world of mesh jackets is the removable SinAqua waterproof breathable lining, so when the weather turns (which is almost inevitable!) you won't get caught out!

# RALLYE JKT & JN

Inspired by our partnership with Paris-Dakar legend Mick Exance and his endurance school, the Rallye jacket and jean has been designed with the new breed of adventure motorcycles in mind. Whether you're blasting across the deserts, riding through Welsh forest or even just out for a Sunday afternoon ride doesn't mean you should have to compromise on kit. Tailored for an upright riding position and fitted with loads of practical features including a multitude of pockets, lots of reflective details, a SinAqua WP breathable membrane and as you would expect CE armour throughout, the Rallye really lives up to its name!

Model: 1888 JKT SRP: £159.99, Model: 1889 JN SRP: £119.99

As its name suggests the Tour Master II is a jacket that's designed to go the distance. Offering exceptional value and great style, the Tour Master II has all the core features you need from a mid-length touring jacket. Large zipped vents at the front and back and a removable quilted lining allow easy temperature regulation. Large pockets on the front, multiple inside pockets and the sizable rear map pocket further enhance the Tour Master's practicality. Available in sizes up to 8XL.

# ALPHA IV JKT & JN

Alpha IV is our entry-level ¾ length textile jacket and matching jean, but as with every RST garment we don't compromise on the core specification. You get a high tenacity Maxtex outer, laminated with reflective panels and featuring an adjustable waist and adjustable arms. You also get a waterproof breathable membrane and a built in quilted thermal lining. We haven't forgotten about safety and include RST Contour Plus CE armour in the shoulders, elbows and knees plus a pocket to allow the jacket to be upgraded with the addition of an RST Contour Plus CE certified level 1 or level 2 back protector (available separately).

# ARAMID JNS

RST Aramid jeans are made for riding, and styled to look like normal jeans. Inside you've got woven Aramid fibres across the knees and seat; Aramid is the same material used in bullet proof vests and has an incredibly high abrasion and cut resistance whilst remaining supple and soft, perfect for use in this type of riding jean. Alongside the Aramid we fit, as standard, Contour Plus CE knee armour in an adjustable pocket to ensure the armour is in the correct place, whatever your leg shape. You will also find removable pockets in the hip area allowing the Aramid jeans to be further upgraded with optional CE Contour Plus hip armour.

# BOOTS

# PRO SERIES

The RST Pro Series boot is the culmination of over 12 months of development and testing. We had so many areas we wanted to perfect on this boot, it has been through no fewer than 9 prototype versions. The Pro Series boot has been designed for racing and fast track use. But, we know from our experience with the supremely successful TracTech Evo boot, that the boot would have to perform just as well on the road. The Pro Series boot is a prime example of the attention to detail we pay to every aspect of a product as it goes through RST's rigorous development programme.

Model: 1503 SRP: £179.99

1503 PRO SERIES RACE BOOT	6-40	7-41	8-42	9-43	10-44	10.5-45	11-46	12-47	13-48
BLACK, WHITE, BLUE, NEON GREEN, FLO RED/WHITE/BLACK									

- 1 Fit:** A race boot must fit snugly, giving as much feedback to the rider as possible. But, at the same time it must restrict the ankle's movement to within the natural range of movement to prevent over-flexion or extension in a crash. The Pro Series Boot has a hinged ankle support that helps to support the ankle but does not restrict necessary movement on the bike. The shape of the toe-box, heel cockpit and width of the boot also underwent a lot of changes until we were happy with how the boot felt on the bike. It's important that your foot is held in place with little movement inside, but at the same time isn't restricted or pinched.
- 2 Sole:** The sole of the boot must be soft enough to offer very good grip levels from the footpeg, both in the wet and the dry. It must also be hard-wearing and strong enough to cope with the stresses of high pressure being applied to small contact areas in cornering. We have settled on a compound that offers both good grip and endurance. Underneath the sole we use a polycarbonate shank to give support and protect the foot. The use of a metal shank would never be considered as it could bend, and stay bent, in a crash.
- 3 Shift Pad:** We have testers of varying shoe size, and this enabled us to study where the gear shift lever actually comes in contact with the boot. We found that foot size was just one factor, also the length of shifter, riders style and type of shifting pattern all influenced which part of the boot came in contact with the shift lever. Due to this study we have enlarged the size of shift pad used to cover all foreseeable areas, preventing damage to the main construction of the boot.
- 4 TPU Moulded Parts:** The Pro-Series Boot has a number of moulded parts; these include the wrap-round heel cockpit, ankle support and shin plate. The rigidity and flexibility of these parts is important as they dissipate a lot of the energy in a crash. They must be strong enough to support the vulnerable areas of the foot, but have the flexibility to absorb as much energy as possible all without feeling uncomfortable, bulky and heavy. After trying various options we selected a TPU material from world-renowned supplier BASF. This helps to contribute to the boots low weight (and therefore low inertia in a crash) and ability to easily pass the stringent CE certification process.
- 5 Internal Support Structure:** We've added inside the boot a new internal support structure, and although these parts are invisible they play a major part in the protective qualities of the boot, specifically protecting the toe; with a wrap around and over front and side protector. This is joined to the strengthened footbed and covers the front and side of the toes. We have also introduced a secondary internal heel cockpit, this is a 2nd layer of protection under the Microtech and visible external heel cockpit. This not only aides with the fitting of the boot, by keeping the heel in place when the rider is moving on the bike but also with the protective qualities of the boot by helping to dissipate energy in a impact; in essence working as a crash helmet for the foot!
- 6 Inner Sole:** The insole is critical in making the boot comfortable, not only by offering support and cushioning to the foot but by being able to wick sweat and allow the foot to breath. We've chosen a gel impregnated POLIFLEX inner sole. As well as feeling soft and comfortable it also demonstrates anti-fungal and anti-bacterial properties that help keep your boots smelling and feeling fresh!
- 7 Toe Slider:** The toe slider has to protect the boot from being damaged when the riders boots comes in contact with the track during extreme lean angles. We've used an TPU backed aluminum-alloy toe slider that has recessed bolts, not only is it very durable it also has a great no-spark properties so it's safe for trackday use. Having recessed bolts enables quick and easy replacement, even if the slider has suffered some harsh use!

# TRACTECH EVO

The TracTech Evo boot is built for sportsbike riding and has all the protection you'd expect. In fact the TracTech Evo is fully CE certified to EN13634. Protection comes from moulded TPU shin, ankle and heel protectors and the boot features an anti-slip multi density sole, ensuring excellent grip on the footpegs. So if you're racing, doing trackdays or just riding your sportsbike on the road the TracTech Evo is the boot you need.

Model: 1516 SRP: £149.99

BLACK, WHITE, BLUE, RED GREEN, FLO RED, FLO GREEN					
		10-5-45	11-46	12-47	13-48

# TRACTECH EVO WP

The waterproof version of our super successful TracTech Evo boot with the addition of a SinAqua waterproof and breathable membrane. This boot is built for riding a sportsbike all year round and has all the protection you'd expect; in fact the TracTech Evo WP is fully CE certified to EN13634. Protection comes from moulded TPU shin, ankle and heel protectors and the boot features an anti-slip multi density sole, ensuring excellent grip on the footpegs. So if you're racing, doing trackdays or just riding your sportsbike on the road in any kind of weather the TracTech Evo WP is the boot you need.

Model: 1523 SRP: £159.99

BLACK					
		10-5-45	11-46	12-47	13-48

# R-16

The R-16 boot completes the R-16 family line-up, a sports boot that offers exception value and comfort. The R-16 has been engineered with a less aggressive fit than either the Pro Series or TracTech Evo boot and is a great everyday sports riding boot. As you would expect from RST though, you still get important sports features such as a large PU shin plate and replaceable nylon toe sliders.

Model: 1063 SRP: £109.99

1063 R-16 BOOT	6-40	7-41	8-42	9-43	10-44	10.5-45	11-46	12-47	13-48
BLACK, WHITE, RED, BLUE									

# PARAGON II WP

Designed for touring or serious street use the Paragon II has all the boxes ticked, hard wearing PU coated leather is matched with PU shin and ankle protection and a one piece PU heel cup. Inside is a SinAqua waterproof and breathable membrane, and the sole is multi-density anti-slip so the Paragon II performs even in the poorest weather.

Model: 1568 SRP: £119.99

1568 PARAGON II WP BOOT	6-40	7-41	8-42	9-43	10-44	10.5-45	11-46	12-47	13-48
BLACK									

# ADVENTURE II WP

The Adventure II boot lives up to its name, a boot for the harshest conditions your feet will find. Heavy-duty alloy buckle and Velcro closure keeps the boot in place and comfy if you're standing on the pegs. The seriously grippy sole will cope whatever the conditions are underfoot when you're off the bike. To keep things dry the Adventure II features a SinAqua waterproof and breathable membrane.

Model: 1656 SRP: £119.99

# STUNT PRO WP

The Stunt Pro WP is a short boot made for riding; short motorcycle boots are really versatile and can be worn with textile or Aramid jeans. They really come into their own when you know you're going to be spending time off the bike too. Comfort whilst walking and riding are designed into the Stunt, with this boot being waterproof you are covered in all weather conditions. So whatever the situation the Stunt Pro WP won't let you down!

Model: 1633 SRP: £89.99

1633 STUNT PRO WP BOOT	5-38	5.5-39	6-40	7-41	8-42	9-43	10-44	10.5-45	11-46	12-47	13-48

# ROADSTER

The Roadster boot is styled like a traditional leather lace up work boot. However as this is a boot that's designed for riding in too we've fitted a full-length side zip to allow quick access, a double layer leather shift change pad and re-enforcement to the ankle area. The Roadster is the perfect combination with a pair of Aramid jeans for a smart yet practical riding outfit that can be worn all day.

Model: 1638 SRP: £129.99

## GLOVES

## TRACTECH EVO RACE

The ultimate race glove used by all our factory riders is the TracTech Evo Race. It's fully loaded with racing features; let's start with a Kangaroo leather palm that is thin enough to give the rider exceptional feel and feedback and strong enough to give serious protection to such a vulnerable area of the body. You'll also find a unique memory elastane knuckle protector under the carbon which further protects the riders' hand. You really need to get your hands inside a pair to feel the incredible comfort that the TracTech Evo Race glove has to offer, without compromising rider protection.

Model: 1317 SRP: £99.99

TRACTECH EVO RACE GLV 1317	7XS	8S	9M	10L	11XL	12 XXL
FLO RED, BLUE, FLO GREEN WHITE, BLACK						

## TRACTECH EVO

Matching the values of the rest of the TracTech Evo collection this motorcycle glove not only has the sporty looks, but the sporty credentials to match. Kevlar thread is used in all the main impact areas and the palm is re-enforced with Aramid panels. Just like the race version, the standard TracTech Evo has a conjoined little finger, preventing the vulnerable pinky being over-extended in a crash.

Model: 2579 SRP: £79.99

TRACTECH EVO CE GLV 2579	7XS	8S	9M	10L	11XL	12 XXL
FLO RED, RED, BLUE, GREEN, WHITE, BLACK						

## BLADE II

The Blade II is the perfect do it all sports glove, representing outstanding value for money. Key features like a double leather palm and carbon knuckle give protection whilst pre-curved and out stitched fingers ensure all day comfort. Available in a wide range of colours and sizes the Blade II is a great summer sports option whatever bike you're riding

2125 BLADE II GLV	7	8	9	10	11	12
BLACK, WHITE, BLUE, RED						

Model: 2125 SRP: £65.99

## STUNT III

An excellent combination with a textile jacket, the Stunt III is a mid-length, supremely comfortable glove. The soft aniline palm and little finger are reinforced with extra leather, the fingers have soft PU vents and ventilated leather panels for warm weather comfort. Add to that a carbon knuckle and superfabric side reinforcement and the Stunt III offers everything you could want in a mid-length sports glove.

2123 STUNT III CE GLV	7XS	8 S	9 M	10 L	11XL	12 2XL
BLACK, WHITE, BLUE, RED, FLO YELLOW						

Model: 2123 SRP: £54.99

## DELTA III

The Delta III is our entry-level sports style glove, but don't think because its entry level you don't get any features. The Delta III has a carbon knuckle, pre-curved fingers and powergrip panels on the palm.

2128 DELTA III GLV	7XS	8S	9M	10L	11XL	12 XXL

Model: 2714 SRP: £39.99

# RETRO II

Designed to match perfectly with the Retro jacket, the Retro glove is styled with the same stitched quilted look and has an integrated PU knuckle built into the soft aniline leather.

Model: 2144 SRP: £44.99

2144 RETRO II GLV	7XS	8S	9M	10L	11XL	12 XXL
BLACK		■	■	■	■	■

# ROADSTER II

The obvious partner to the Roadster jacket, this glove is built from the same soft milled vintage leather. The suppleness of this glove really has to be felt to be appreciated. Plenty of baffled leather stretch panel only enhance this gloves level of comfort and style.

2143 ROADSTER II GLV	7XS	8S	9M	10L	11XL	12 XXL
VINTAGE BLACK, TOBACCO BROWN		■ ■	■ ■	■ ■	■ ■	■ ■

Model: 2143 SRP: £44.99

# INTERSTATE

Designed as the perfect match to the Interstate jacket. The Interstate II glove uses the same heavy grain leather and features elasticated wrist closures along with alcantara details in the palm area.

Model: 2135 SRP: £44.99

2135 INTERSTATE GLV	7XS	8S	9M	10L	11XL	12 XXL
BLACK		■	■	■	■	■

# CRUZ

Just like the Cruz jacket the glove has been inspired by the 1950's so you'll find an all leather construction, with vented leather panels (which matches the design of the jacket) and a double layer of leather on the palm. Like all RST gloves, we pre-curve the fingers for improved comfort on the bike.

1724 CRUZ GLV	7XS	8S	9M	10L	11XL	12 XXL
BLACK, BROWN		■ ■	■ ■	■ ■	■ ■	■ ■

Model: 1724 SRP: £29.99

# THERMOTECH

We've created the ultimate winter motorcycle glove. In fact this is RST's first heated glove. The RST Thermotech Heated Waterproof glove is designed to protect and keep you warm through the harshest of weathers in the UK. If you're looking for the best motorcycle glove for winter then look no further. With three levels of warmth and up to 4 hours of heat the Thermotech's wireless Li-On battery is by far the most rider friendly option available. For added convenience additional batteries and chargers are available separately.

Model: 1646 SRP: £189.99

1646 THERMOTECH HEATED GLV	7XS	8S	9M	10L	11XL	12 XXL
BLACK, BROWN		■	■	■	■	■

## TITANIUM OUTLAST II WP

The ultimate four season glove, the Titanium uses an incredible lining material called Outlast, which helps regulate your temperature, keeping you warm in winter and cool in summer, add to that a Hipora breathable and waterproof membrane, a carbon knuckle and pre-curved fingers and the Titanium really could be the only glove you ever need.

Model: 2093 SRP: £89.99

# LADIES

# BLADE II JKT & JN

Our design and development team had a really tough job with the Blade II. As our best-selling leather jacket, the ladies specific Blade had a reputation for being an impeccable all round jacket & jean so we set out to improve and upgrade the Blade rather than starting from scratch. We've used the same block but added loads of details, including a full length side stretch panel to the jacket, this gives more flexibility and helps with the fit of the jacket. We've added perforation-in-panel ventilation for improved seam strength, a level 2 CE certified back protector and inspired by our racing leathers we've built in TPU shoulder sliders to aid with collarbone protection.

Model: 1935 JKT SRP: £249.99, Model: 1936 JN SRP: £209.99

# KATE JKT & JN

Classic tailoring and super soft aniline leather give the Kate jacket and jean not only a great look but also a great feeling when you wear it. The sides of the jacket, the back and crotch area of the jeans are stretchy Maxtex that helps give the jacket and jean a very flattering feminine ergonomic fit when you're riding or when you're off the bike. Fitted with our RST Contour Plus CE certified armour in the shoulders, elbows and knees as standard and with the option to upgrade to a CE certified level 1 or level 2 back protector (available separately).

# ROADSTER JKT

Constructed entirely from specially milled, distressed vintage leather, the ladies Roadster jacket has the look and feel of a jacket that you've ridden in for years. Look closer and you'll notice the double and triple seams stitched using our ultra-strong bonded, twisted nylon. With RST Contour Plus CE armour in the shoulders and elbow as standard and the option to upgrade to a CE certified level 1 or level 2 back protector (available separately), it is a true riding jacket with a technical specification brought right up to date.

Model: 1228 SRP: £209.99

# CRUZ JKT

The ladies specific version of our Cruz jacket has been inspired by jackets from the 1950's with a retro turned-over collar, vintage effect metal zips and quilted detailing to the leather at the top of the arms. For added comfort we've used a finely perforated leather up the side and under the arms of the jacket; this not only helps keep the jacket vented it also reduces weight and aids riding comfort.

Model: 1053 JKT SRP: £169.99

1053 CRUZ LTMR JKT	8	10	12	14	16	18	20

# PARAGON IV JKT & JN

We've had our work cut out improving the ladies version of the Paragon jacket, but now in its 5th generation we've raised the bar yet again. The Paragon jacket and jean are a touring riders dream, constructed from Teflon coated Maxtex and Ballistic with our SinAqua waterproof membrane on the inside. So you have the benefit of a water resistant outer combined with the waterproof and breathable membrane on the inside. We're also using waterproof zips throughout, and the main entry is double zipped with a gutter system inside too! On the inside you have a removable full-length quilted jacket to keep you really warm as well as dry on even the worst of days

# BLADE II JKT & JN

As with its leather counterpart our design and development team had a really tough job with the ladies specific Blade II. As our best-selling textile WP jacket/jean combo the Blade already has a feature list far outclassing the competition, so we set out to improve and upgrade the Blade rather than starting from scratch. We've used the same block as the original Blade but added loads of details, including built in TPU shoulder sliders to aid with collarbone protection, as you would expect the Blade comes with a full suite of Contour Plus CE approved armour, including a CE level 2 certified back protector. We also use our proven SinAqua waterproof and breathable membrane so when you've got the jacket and jean connected you're sure to stay protected from the elements!

# VENTILATED BROOKLYN JKT & JN

The Ventilated Brooklyn is the most versatile ladies textile jacket and jean in the RST collection. It has a Maxtex / K400 mesh outer shell and a removable SinAqua waterproof, breathable membrane. Combined with a separate removable 100gsm quilted lining, this provides the perfect combination for all year round riding. Wear the fully CE armoured jacket and jean outer shell on its own if the temperature rises, add the SinAqua lining to create a windproof/ waterproof combination or add the quilted lining to provide the warmth an all year garment needs. Finally you can wear all three layers together to really keep the elements out.

WATERPROOF PANT 1826

SAFETY JKT 1824

## HI-VIZ

Pro Series Rain Jkt & Jn

Using the very highest quality materials the Pro Series rain gear will keep the very worst of the weather off you. Super high visibility yellow finish with huge reflective panels down the full length of the arms and legs, across the chest and back ensure you are clearly visible to all other traffic. Fully mesh lined jacket and jeans for ease of use with a parachute strap in the crotch area to stop the jacket riding up in poor weather. The jacket is fitted with a zipped expander panel in the back to accommodate a race hump equipped jacket.

Waterproof 1 pc / Jkt / Jn

Perfect to carry on the bike when the weather is likely to turn wet. The fit is generous enough to fit over leather and textile garments without a race hump. Easy entry points means they can be put on in seconds.

Safety Jkt

Designed to be worn over any RST garment and featuring significant reflective detailing, the safety jacket provides you with excellent visibility to other road users both day and night.

## UNDERGARMENTS

**Thermal Wind Block**  
Wind chill has a dramatic effect on the loss of body heat from the skin, so a fabric that blocks the wind is vitally important when you're riding a motorbike, not only to stay comfortable but also to keep alert. The RST TWB fabric offers more than just wind protection; the ergonomic design is enhanced by a four-way stretch material with stretch and compression properties. This helps keep the muscles warm, reducing muscle strain and rider fatigue. The breathability of TWB also keeps you comfortable and as warm as possible. As with all RST products, RST TWB garments have been tested by our development team in the toughest weather the UK has to offer.

**Tech X Multisport**  
RST Tech-X technical wear has been designed to keep you comfortable in the most demanding conditions. Suitable for a wide variety of sport and leisure applications, the Tech-X technical garments made from CP-U fabric has outstanding moisture wicking properties keeping your skin temperature regulated; in hot conditions the CP-U fabric quickly draws perspiration away from the skin keeping you dry and comfortable, and in cool conditions the same wicking properties help maintain skin temperature keeping you warmer for longer. Tech-X technical wear is the perfect under garment choice for any activity or pursuit that challenges the body. Tech-X technical wear has been designed and tested in the toughest conditions, it is available in one-piece under-suit, long-sleeve top, short sleeve top and full-length pants.

**MULTITUBE / RACE DEPT MULTITUBE**  
High quality multi-purpose RST branded garment that can be worn many ways. From a traditional neck warmer to a bandana and everything between.

Model: 0229 SRP: £9.99

Model: 0203 SRP: £9.99

**Ladies Bobble Hat**  
Look on trend with this ladies RST Bobble Hat. The hat features RST Embroidered design to offer a stylish finish with a large bobble on the top to complete the look.

Model: 0185 SRP: £9.99

**Logo Cap**  
The Men's RST flexfit style Cap features an elasticated back for secure and comfortable fit, a large RST logo embroidered to the front along with a small logo to the back, finished off with contrasting colour binding.

Model: 0174 SRP: £12.99

**Speed Lines Cap**  
The Men's RST flexfit style Cap features an elasticated back for secure and comfortable fit, a large Speed Lines logo embroidered to the front along with a small logo to the back, finished off with contrasting colour binding.

Model: 0173 SRP: £12.99

**Reversible Beanie**  
The RST reversible Beanie Hat offers a great warm and stylish look. It features a soft stretch knit that feels great while helping to trap in warmth. Finished off with the RST logo stitched to the front.

Model: 0171 SRP: £12.99

# ACCESSORIES

**HEATED GLOVE CHARGER**

Model: 1649 EU CHARGER SRP: £9.99  
Model: 1644 UK CHARGER SRP: £9.99

PLEASE NOTE: Although we strive to produce garments that are consistent in size across all ranges, the methods of production, the materials used, and the unique nature of motorcycle protective wear mean that for the best fit garments should be tried on before purchasing. If you have any questions your local dealer will be happy to help. For full size and fitting info please visit: [www.rst-moto.com/sizing](http://www.rst-moto.com/sizing).

Due to the printing processes we have used in producing this brochure, we are unable to guarantee that the colours reproduced replicate actual product colours. Every care is taken in producing this brochure to ensure that all details are correct at the time of publication. RST reserve the right to alter specs without notice.
