# FACETED BALL

Taking its inspiration from natural crystal formations and rare gemstones, the Faceted Ball combines natural beauty with a sense of luxury. Available in clear and smoked grey solid lead crystal, these timeless shapes will add a touch of elegance. The clear option reflects and refracts light around the room whilst the smoked grey draws in and darkens light to evoke a sense of night.

When light passes through and strikes a polished facet, the light can be reflected back into the finial, intensifying the lighting effect, until it bounces out of the crystal giving the signature brilliance of this shape of cut.

# TEARDROP

Formed from solid lead crystal and accented by a metal finish collar, the timeless Teardrop shape combines perfectly with the sleek minimal pole. Playfully reflecting light, it blends beautifully with a wide range of interiors.
