

# North West District Salmon Fishery Board and the West Sutherland Fisheries Trust

## Category 1

All inland waters which drain directly or indirectly into the sea between to the east, Cave of Smoo (grid reference NC 4188 6717); and to the west, Cape Wrath (grid reference NC 2575 7494) ("the outflow limits"); and all inland waters on any island lying within that area of water extending seaward of the outflow limits for 5 kilometres. This is the Grudie or Dionard area.

## Category 2

All inland waters which drain directly or indirectly into the sea between to the east, the headland north of Sron an Daimh (grid reference NC 5714 6638); and to the west, Cave of Smoo (grid reference NC 4188 6717) ("the outflow limits"); and all inland waters on any island lying within that area of water extending seaward of the outflow limits for 5 kilometres. This is the Hope and Polla area.

## Category 3

All inland waters which drain directly or indirectly into the sea between to the north, Cape Wrath (grid reference NC 2575 7494); and to the south, Ardmore Point (grid reference NC 1822 5145) ("the outflow limits"); and all inland waters on any island lying within that area of water extending seaward of the outflow limits for 5 kilometres. This is the Incharad area.

## Category 3

All inland waters which drain directly or indirectly into the sea between to the north, Ardmore Point (grid reference NC 1822 5145); and to the south, Point of Stoer (grid reference NC 0213 3559) ("the outflow limits"); and all inland waters on any island lying within that area of water extending seaward of the outflow limits for 5 kilometres. This is the Laxford area.

## Category 2

All inland waters which drain directly or indirectly into the sea between to the north, Point of Stoer (grid reference NC 0213 3559); and to the south, Kirkaig Point (grid reference NC 0589 2121) ("the outflow limits"); and all inland waters on any island lying within that area of water extending seaward of the outflow limits for 5 kilometres. This is the Inver area.

## Conservation Measures to Control the Killing of Wild Salmon (Effective 1st April 2016)

**Category 1**  
Rivers will require no change in management, although the situation will continue to be monitored.

**Category 2**  
Rivers are required to demonstrate an increase in the management of the fish. An increase in the percentage of fish returned is expected.

**Category 3**  
Rivers are mandatory catch and release throughout the season. All fish should be returned regardless of condition.

**Category 2**  
All inland waters which drain directly or indirectly into the sea between to the north, Kirkaig Point (grid reference NC 0589 2121); and to the south, Rubha Dunan (grid reference NC 0185 0687) ("the outflow limits"); and all inland waters on the Summer Isles and on any island lying within that area of water extending seaward of the outflow limits for 5 kilometres. This is the Kirkaig area.
