

WinFan (M) Sdn Bhd

Product name: PP Small Centrifugal Fan

Our PP centrifugation fan is made of PP material, it's suitable for poisonous or corrosive gas with temperature within -8 degree to +80 degree. It's for interior room use only. The fan is driven by motor directly. We use many measures to prevent corrosion for transmission shaft or motor. It's a single phase motor with 3 different rpm to adjust the wind volume.

Motor Code	Power	Speed (rpm)	Wind volume (m3/hr)	Wind static pressure (mmAq)	Noise level (dB)
YDK series	0.3kw/1phase/ 220-240V/50Hz	1450	2000-2500	30-28	65
