

機械式壓力開關，適用於空氣、水壓、油壓、蒸汽、冷凍……等。當壓力變化時，可當作電氣迴路開閉之用，並可避免接點開關頻繁而損壞設備。

SAFE有豐富經驗與技術，對此壓力開關產品有相當品質、信賴、安全及正確穩定作動，壓力設定於外部，方便調整設定壓力動作。

Machinery pressure switch are suitable for used in air pressure, water pressure, oil pressure, steaming, refrigeration, etc. Once pressure changes, it can be as electric circuit switching to prevent from damaging the facilities.

We can say that well-experience & advanced technology is what "SAFE" acquired. Not only quality, trust, safety but also stability and easily pressure adjustment.
