

WinFan (M) Sdn Bhd

Product name: WFM Seikow Texel FRPP Sirocco Fan

Our FRPP Sirocco fan casing and impeller are made of molded FRPP material featuring excellent chemical resistant and high-dimensional accuracy. The fan is driven by motor directly. We use many measures to prevent corrosion for transmission shaft or motor. It run on 3 phase motor with or without speed control by VFD/Inverter.

These models provide standard central discharge in 3 orientations.

Air capacity is from 350 cfm - 4000 cfm and static pressure from 1" - 4" wg.
