RESTORATION GLASS

All the Beauty of Authentic Antique Window Glass Today

Now you can have the old world look and feel you desire, including the characteristic imperfections found in authentic antique window glass, in a special glass product that offers you:

- Antique glass look and feel made using the authentic mouthblown cylinder glass techniques as they have been preserved and handed down through generations of craftsmen
- Custom sizes cut to your specification
- Greater ease of handling than salvaged authentic antique glass
- Consistency of colour, brilliance and body

Available in **safety toughened** & annealed form to meet stringent modern building safety codes

Description

A kiln made glass. Slight distortions and imperfections make it ideal for use in heritage buildings, homes and antique or reproduction furniture, lighting leadlight & stained glass..

Available in various forms
