Name: ___________________________ Surgery date (or month/yr): _________

All surgeon fees must be paid 14 days prior to your surgery. If surgery is scheduled less than 14 days prior to your selected date all surgeon fees are due at the time of your booking.

A non-refundable scheduling/booking fee of $1,000 ($3,000 if surgery date is greater than 6 months from date of initial scheduling) is required and is credited towards your balance. This fee is payable by check (if scheduled surgery is greater than 2 weeks away), credit card, cash, money order or bank check only.

If you cancel, or cause your surgery to be cancelled (such as for non-payment of all necessary fees, failure to arrive on time or arrive in any condition or behave in any manner that would make it improper or unsafe to proceed with surgery, or did not follow all pre-operative instructions by your physicians or hospital) you and the person who may have paid for the surgery are bound by the schedule of charges below:

Cancellation 8-14 business days prior to the scheduled procedure:

25% of the surgeon fee

Cancellation 2-7 business days prior to the scheduled procedure:

50% of the surgeon fee

Cancellation within 2 business days prior to the scheduled procedure:

75% of the surgeon fee

Cancellation day of surgery: 100 percent of the surgeon fee is forfeited.

Hospital and anesthesia cancellation fees are per their policies.

Signed: ___________________________ Date ____/____/______
Rescheduling the procedure and any reduction in the cancellation charge is at the sole discretion of Dr. Reilly.

“Revision” or “touch –up” surgery may sometimes be necessary. Occasionally it may be performed in the office with local anesthesia if it is minor. It is at the sole discretion of Dr. Reilly as to whether it is reasonable, can be performed in an office setting safely and whether any surgeon fee is charged. Complimentary “touch up surgery”, if offered, is only available within the first year and has a minimum fee of 200 dollars for supplies.

Any “revision” or “touch-up” surgery performed in a hospital operating room will always have associated anesthesia and facility costs and they are solely the patient’s responsibility. A surgeon’s fee, at the discretion of Dr. Reilly, may be required.

Fees paid for surgery do not include any additional costs that may be incurred due to unanticipated events as well as any costs associated with analyzing tissue specimens removed including breast tissue in men and women.

In any matters in dispute after the fact or after services are rendered, I/we hereby waive any privacy consideration under the Health Information Portability and Accountability Act of 1996 (HIPAA).

Please do not sign this form until you have completely read this two page document, have had all your questions satisfactorily answered and have confirmed your schedule and finances.
