The *Invacare Action5* has been designed for the more active individual, looking for an affordable chair with great drive performance and the ability to fold easily for handling, storage and transportation purposes.

With it's two new advanced innovations (patent pending) and lightweight construction, the new *Action5* gives individuals a chair they can enjoy and rely on.

Key features include:

- Unique folding mechanism
- Stability of a rigid chair
- Quick step-less adjustability
- Highly configurable

**XLT**

The *Invacare XLT* has been designed with the individual in mind.

Measured, constructed and fitted to suit the precise requirements of each person, the XLT is the ideal chair to help regain, retain and improve both mobility and independence.

Made entirely from titanium the XLT gives stability and rigidity without compromising on weight.

In combination with the wide range of options, features and configuration possibilities offered with the XLT, you will benefit from a chair which offers the maximum security and support needed when going about daily activities.

Overall weight	25.3 lb	11.5 kg
Max user weight	18 st	115 kg
Folding Backrest	Yes	
Removable footrest	Yes	
Removable armrest	No	
Attendant brakes	Yes	

The Ergo Live wheelchair is an innovative mobility product.

Its lightweight design is intended for optimum comfort and performance and allows the user to easily manage it on a day to day basis.

When complete the chair weighs just 13kg but can be stripped down to 8.5kg for transport and storage.

The lightweight design combined with the folding frame and short wheelbase ensure that the Ergo Live really is the perfect wheelchair for users looking to maintain an active, independent lifestyle.

The user will enjoy adjustments like the backrest which can be modified to either 85, 90 or 95 degrees and fantastic features like the optional S-Ergo seating system which allows users to sit in comfort without sliding.

## Wheelchair Prices 2016
