The *Invacare XLT* has been designed with the individual in mind.

Measured, constructed and fitted to suit the precise requirements of each person, the XLT is the ideal chair to help regain, retain and improve both mobility and independence.

Made entirely from titanium the XLT gives stability and rigidity without compromising on weight.

In combination with the wide range of options, features and configuration possibilities offered with the XLT, you will benefit from a chair which offers the maximum security and support needed when going about daily activities.

Topaz

The Invacare Topaz wheelchair is designed specifically to suit the unique needs of larger users.

The Topaz combines the strength and durability of a triple chrome-plated, carbon steel frame with the comfort of heavy-duty legrest options and arms for correct positioning.

The chair offers ease in manoeuvrability and stability from frame reinforcements that include gusseted sides, castor bearing blocks and dual heavy-duty crossbraces.
