Do you want your business to grow?

You need to go mobile! Here is what we can do for your business:

- ✓ Simultaneously design, build and manage a beautiful iPhone, iPad, Android and PWA for your business
- ✓ Improve your social networking strategies and increase followers on Facebook and Twitter
- ✓ Boost foot traffic and revenue for your business
- ✓ Enhance overall brand exposure for your business
- ✓ Encourage repeat business and customer loyalty
- ✓ Increase mobile search engine visibility

Get more traffic and customers

The growth of mobile app usage

Mobile phones have become a necessity, and as a result, apps have become an integral part of people's lives:

66% of consumers say they use shopping apps on their mobile devices¹

52% of the global web traffic came from mobile devices²

70% of the total digital media time is spent on mobile³

Request your FREE app demo today!

We offer a free demonstration app for your business so that you can see exactly how you can generate more traffic and customers.

iOS, Android & Progressive Web Apps

Increase sales with Push Notifications

Drive extra walk-in traffic during quiet times and generate extra business

Easily segment your audience based on device, location and proximity

Target your customers based on their interests with your business

Send out individual and group messages based on membership levels

Segmented Push Notifications

Target your customers based on their interests! The subscription feature allows to create subscription categories in order to send relevant push notifications to the app users. These categories appear in the 'Messages' feature within the app and users can choose what type of messages they wish to receive.

Over 50 features available!

We understand that your business is unique. Your app can include additional custom features designed around your business:

Mobile Shopping

Push Notifications

YouTube Integration

Food Ordering

Event Listings

Blog Integration

GPS Directions

Digital Loyalty

Mobile Reservations

Social Integrations

Advanced Analytics

Image Galleries

We design, build and publish your apps.

You can take full control and make live app updates anytime.

“

“We knew apps existed, but didn't know that this type of mobile solution was available and affordable for small businesses. Our hair salon can now use the loyalty programs and communicate with the customers via push messages. The solution has always been flexible, easy to use and we always received a high level of customer service.”

- Skin & Tonic
