Con un equilibrato gioco di volumi la cucina Mya rilegge con spirito contemporaneo le atmosfere calde e rasserenanti della tradizione classica. La particolare finitura dell'anta a telaio, in alkorcell un materiale atossico ed ecocompatibile, dà alle riproduzioni di essenze in legno spazzolato, una sensazione tattile e visiva di grande naturalezza. Le emozionali soluzioni estetiche contemporanee, semplici e razionali, garantiscono risultati compositivi originali, grazie anche all'ampia modularità prevista e soprattutto all'anta dalla pregiata lavorazione.

IL GRUPPO LUBE HA SCELTO DI UTILIZZARE PER I COMPONENTI COSTITUENTI LE STRUTTURE DELLE CUCINE SOLO MATERIALE A BASSISSIMA EMISSIONE DI FORMALDEIDE: CONFORMI ALLO STANDARD F4STELLE SECONDO LA NORMA JIS, CERTIFICATO DAL MINISTERO GIAPPONESE, IL PIU' SEVERO IN MERITO ALLE NORMATIVE DI SALVAGUARDIA AMBIENTALE.

Regarding the production of its kitchen structure components, lube group has decided to only use materials featuring very low formaldehyde emissions complying with the 4-star standard, as defined by the jis regulation. This standard is certified by the japanese government-the most rigorous when it comes to environmental protection.

With its balanced play of volumes, Mya kitchen is a modern reinterpretation of the relaxing warmth of traditional spaces. The special finish of the framed door, in alkorcell, a non-toxic, eco-compatible material, gives the reproductions of brushed woods a particularly natural tactile and visual effect. The evocative modern, simple and rational solutions ensures fresh and new, results thanks also to the modularity of the series and above all the high value finish of the doors.

FLAP DOOR WALL UNITS BLUMOTION CLOSING SYSTEM

PENSILE CON APERTURA A RIBALTA

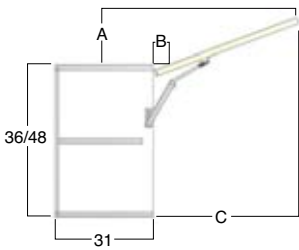

Le ante aprendosi verso l'alto consentono di avere un' ampia visione d'insieme all'interno del mobile. In questo modo è possibile un comodo accesso agli oggetti contenuti al suo interno e, dal punto di vista ergonomico, molto vantaggioso. La regolazione della forza di apertura può essere impostata in modo esatto in base al peso del frontale. Grazie all'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata di serie.

N.B.: DISPONIBILE A PARTIRE DA GENNAIO 2014

WALL UNIT WITH FLAP DOOR

The doors that open upwards guarantee ample overall visibility inside the cabinet. In this way, all objects housed inside the cabinet can be comfortably accessed, making the system highly advantageous from an ergonomic perspective. The opening force can be adjusted precisely according to the weight of the front. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned standard

APERTURA VERTICALE OBLIQUA

I pensili con questo tipo di meccanismo necessitano per l'apertura di poco spazio libero sopra il mobile grazie al movimento basculante dell'anta che si apre senza difficoltà applicando poca forza anche in presenza di frontali pesanti. Con l'arresto progressivo le ante si fermano in qualsiasi posizione; in questo modo la maniglia è sempre facilmente raggiungibile. La chiusura è ammortizzata ed è possibile regolare la forza di tenuta in base al peso del frontale.

VERTICAL OPENING OBLIQUE

Wall units that mount this type of mechanism require little clearance above the cabinet thanks to the swivelling movement of the door that can be easily opened by applying slight pressure, even with heavy fronts. The doors stop in any position thanks to the gradual stopping movement; in this way, the handle is always easily accessible. The closing movement is cushioned and the closing force can be adjusted according to the weight of the front door.

OUT-OF-PLUMB MEASUREMENTS

Per le composizioni ad angolo è importante rilevare l'esatta misura dell'angolo per il corretto montaggio della cucina. Si tenga presente che la diagonale dell'angolo di 90° è di cm 141,4 (100x100).

For corner compositions, it is important to measure the corner precisely to ensure that the kitchen is correctly installed. Bear in mind that diagonal segment opposite the 90° corner measures 141,4 (100x100)

Riportiamo di seguito una tabella in cui sono riportate rispettivamente la misura dell'angolo con la diagonale corrispondente.

ANGOLO

MAGGIORE DI 90°

CORNER
EXCEEDING 90°

Nel caso in cui abbiamo un angolo maggiore di 90° le misure della base ad angolo non cambiano, ma viene aumentata la misura del massello angolare (Y).

N.B. per angoli maggiori di 110° interpellare sempre il nostro Ufficio Tecnico.

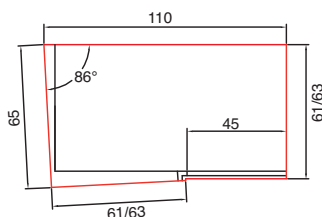

In case of corners exceeding 90°, the dimensions of the corner base unit do not change, while the size of the corner solid wood section (y) increases.

Note: for corners exceeding 110°, always contact our Technical Department.

ANGOLO COMPRESO

TRA 86° E 90°

CORNER BETWEEN
86° AND 90°

Nel caso in cui abbiamo un angolo compreso tra 86° e 90° le misure della base ad angolo non cambiano, ma viene diminuita la misura del massello angolare (Y).

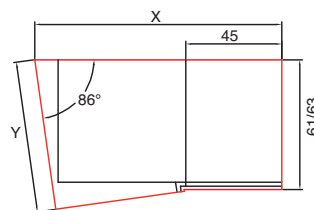

Inoltre è necessario tener presente che di seguito alla base ad angolo non possono essere inserite basi forno, cassettiere, lavastoviglie, ma esclusivamente basi con anta incernierata sul fianco.

In case of corners between 86° and 90°, the dimensions of the corner base unit do not change, while the size of the corner solid wood section (y) decreases. Moreover, it is important to remember that oven base units, drawer units or dish-washers cannot be inserted next to the corner base unit, but only base units that have the door hinges on the side.

ANGOLO

MINORE DI 86°

CORNER
BELOW 86°

Quando l'angolo è inferiore a 86° la lunghezza della composizione viene aumentata in rapporto all'ampiezza dell'angolo (vedi tabella) per questo motivo è importante specificare nell'ordine le misure delle pareti da arredare.

Inoltre è necessario tener presente che di seguito alla base ad angolo non possono essere inserite basi forno, cassettiere, lavastoviglie, ma esclusivamente basi con anta incernierata sul fianco.

When the corner measures below 86°, the length of the composition increases in relation to the size of the corner (see table); for this reason, in the order it is important to specify the measurements of the walls to be furnished. Moreover, it is important to remember that oven base unit, drawer units or dish-washers cannot be inserted next to the corner base unit, but only base units that have the door hinges on the side.

RILEVAZIONE DEL FUORI SQUADRO

OUT-OF-PLUMB MEASUREMENTS

Nelle composizioni lineari dove a inizio o fine composizione c'è una parete fuori squadra prendere sempre la misura della diagonale e comunicarla al nostro Ufficio Tecnico.

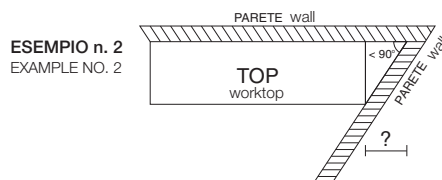

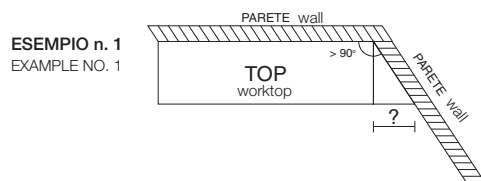

In regards to linear compositions that have an out-of-plumb wall at the beginning or end of the composition, remember to always take the measurement of the diagonal segment and notify it to our Technical Department.

Nell'esempio n. 1 l'angolo è maggiore di 90° e quindi occorre aumentare il top davanti; la stessa cosa si deve fare per le basi, mettendo una fascia di tamponamento.

In example no.1, the corner exceeds 90° , thus the worktop must be extended on the front; the same applies to base units, where a filler panel must be added.

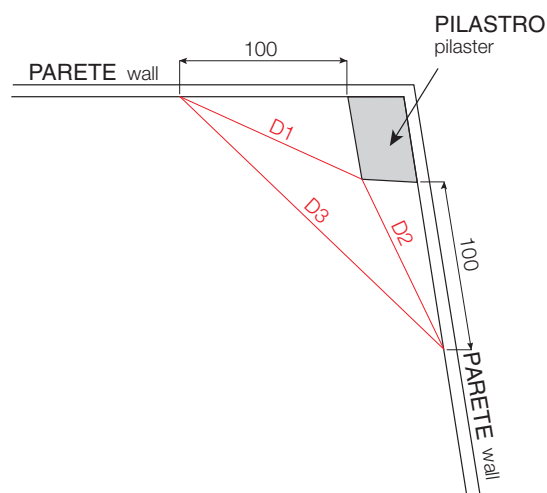

Nell'esempio n. 2 l'angolo è minore di 90° occorre accorciare la composizione; questo vale sia per il top che per le basi.

In example no.2, the corner is below 90° , therefore the composition must be shortened; this applies to both the worktop and base units.

Nel caso in cui nell'angolo ci sia un pilastro, occorre rilevare oltre alle misure del pilastro anche le 3 diagonali come riportato nello schema (d1-d2-d3).

In case there is a pillar in the corner, we need to have the 3 diagonal measures as shown in the scheme (d1-d2-d3) other than the measures of the pillar itself

CAPPA A RIDOSSO DEL PENSILE ANGOLO HOOD ADJACENT TO CORNER WALL UNIT

Consigliamo di non posizionare una cappa d'arredamento a fianco di un pensile angolo 65x65 diagonale in quanto impedisce la corretta apertura dell'anta.

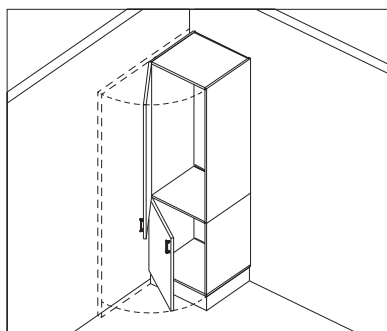

It is advisable not to install a design hood adjacent to a 65x65 cm diagonal corner wall unit, as this interferes with the opening of the wall unit door.

PENSILI ANGOLO A RIDOSSO DELLA COLONNA CORNER WALL UNITS NEXT TO THE TALL UNIT

Per problemi di apertura evitare composizioni angolari dove il pensile angolo è a ridosso della colonna.

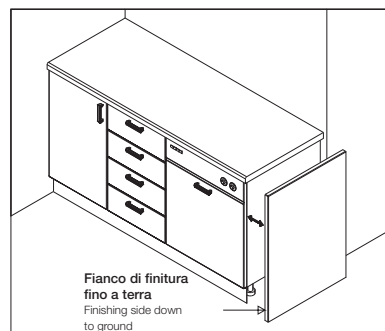

Avoid corner compositions where the corner wall unit is next to the column in order not to have problems in opening the doors.

FRIGORIFERO VICINO AL MURO REFRIGERATOR NEAR THE WALL

Nel caso che una colonna frigorifero sia posizionata vicino ad una parete occorre lasciare uno spazio di almeno 4 cm per consentire una totale apertura dell'anta della colonna e l'estrazione totale dei cassetti dell'elettrodomestico.

If a fridge column is positioned close to a wall, leave at least 4 cm free to ensure the full opening of the column door and the full extension of the appliance's drawers.

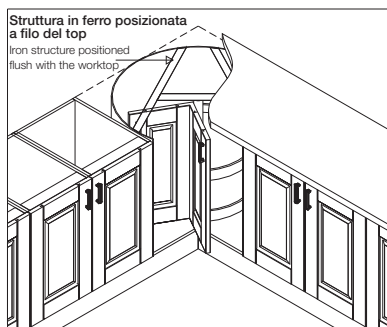

ELETTRODOMESTICO A FINE COMPOSIZIONE HOUSEHOLD APPLIANCE AT THE END OF A COMPOSITION

Nel caso che la lavastoviglie o la lavatrice sia posizionata a fine composizione occorre l'uso di un fianco di finitura fino a terra, considerando lo spessore dello stesso per determinare la lunghezza del top.

If a dishwasher or washing machine is placed at the end of a composition, it is necessary to install a finishing side down to ground; the latter's thickness must be considered when determining the length of the worktop.

BASE ANGOLO 95x95 2 ANTE GIREVOLI 95x95 CORNER BASE UNIT WITH 2 SWIVEL DOORS

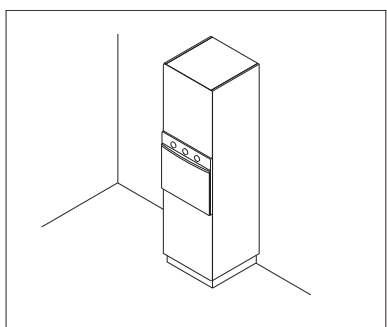

Non è possibile inserire gli elettrodomestici.
Household appliances cannot be inserted

PENSILE ACCANTO ALLA COLONNA WALL UNIT NEXT TO A COLUMN

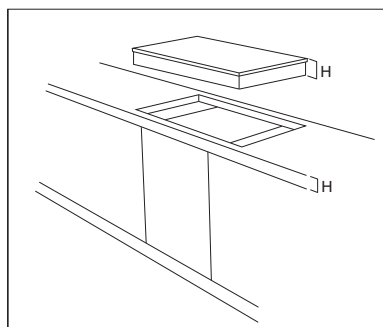

Evitare il posizionamento del pensile verso la colonna, in quanto non si ha una completa apertura dell'anta e si rischia di danneggiare il fianco.

Avoid placing a wall unit near the column, as this prevents the complete opening of the door and may cause the side to be damaged

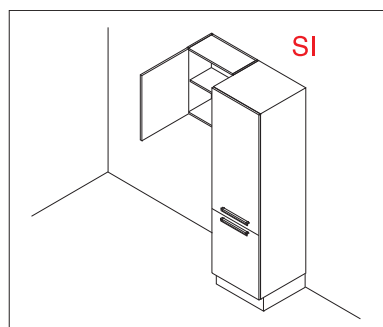

FORNI STATICI SENZA VENTILAZIONE NON-VENTILATED STATIC OVENS

Evitare l'abbinamento dei forni statici senza ventilazione di raffreddamento nelle colonne, poichè il calore e il vapore emanati durante il funzionamento dell'elettrodomestico possono danneggiare le antine e la struttura della colonna.
Avoid inserting non-ventilated static ovens in columns, as the heat and steam generated during the appliance's operation may damage the column's doors and carcass.

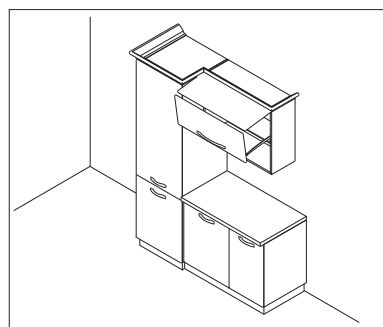

INCASSI PIANI COTTURA HOB CUT-OUT

Verificare sempre l'incasso (spessore top) dei piani cottura posizionati sopra qualsiasi elettrodomestico sottotop (lavastoviglie, frigorifero, ecc.)
Always check the cut-out of hobs (thickness of work top) where under counter appliances are positioned (dishwasher, fridge, etc...)

Si consiglia di utilizzare il pensile con l'apertura dell'anta opposta alla posizione della colonna con cerniere a 180°

It is advisable to use a wall unit with a door that opens in the opposite direction to the column's position, with 180° hinges.

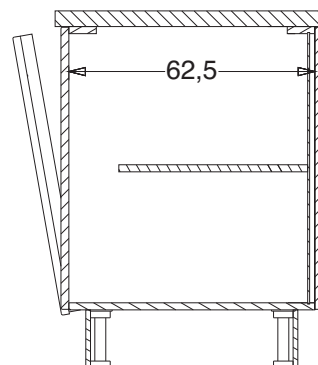

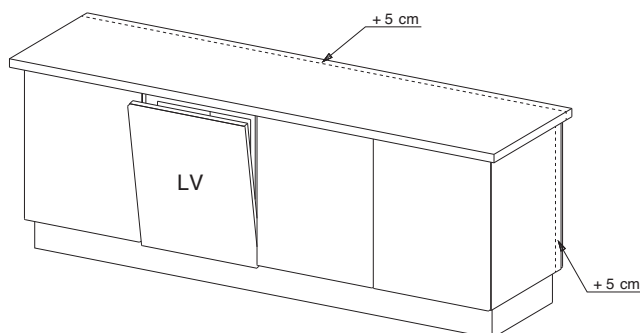

PENSILE A PACCHETTO WALL UNIT WITH LIFT-UP FOLDING DOOR

Per evitare nei pensili con apertura a pacchetto l'interferenza dell'anta in fase di apertura con cornici o mensole si può richiedere il limitatore dell'angolo di apertura cod.5620005

In order to avoid that the lift-up folding door interferes with cornices or shelves during the opening movement, it is possible to request an opening angle limiter code 5620005

PENISOLE - ISOLE CON LAVASTOVIGLIE CON ZOCCOLO POSTERIORE

PENINSULAS - ISLANDS WITH DISHWASHER WITH BACK PLINTH

Nei casi di lavastoviglie, rifinita con zoccolo posteriore, inserita su isole o penisole è obbligatorio aumentare la profondità standard delle basi di 5 cm, con una maggiorazione del 18%

In case there is a dishwasher positioned in island or peninsula with back plinth, it's obligatory to add 5 cm extra to the depth of the bases, with a surcharge of 18%

PENISOLE - ISOLE CON LAVASTOVIGLIE CON PANNELLO POSTERIORE

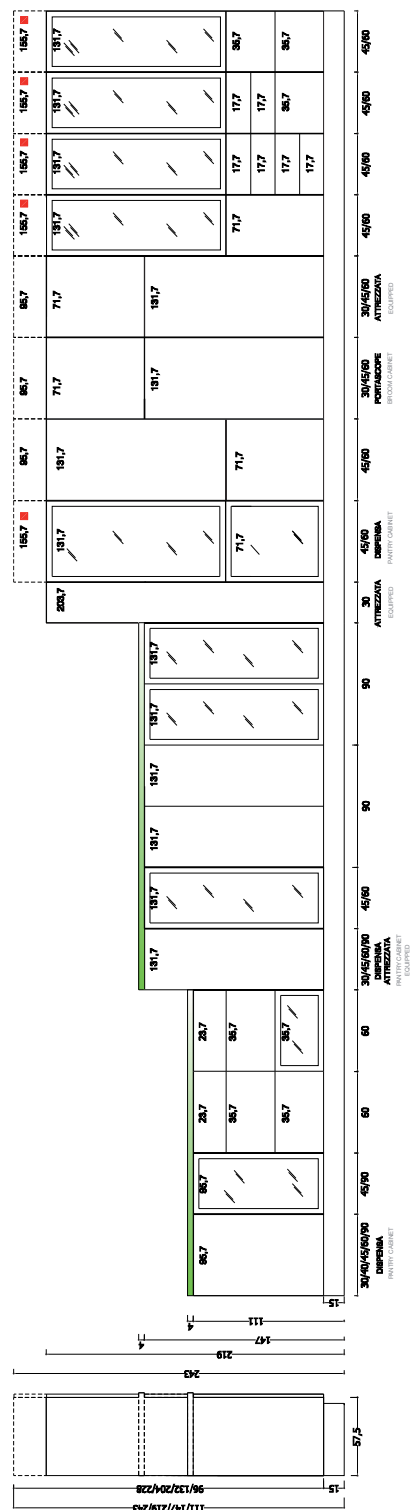

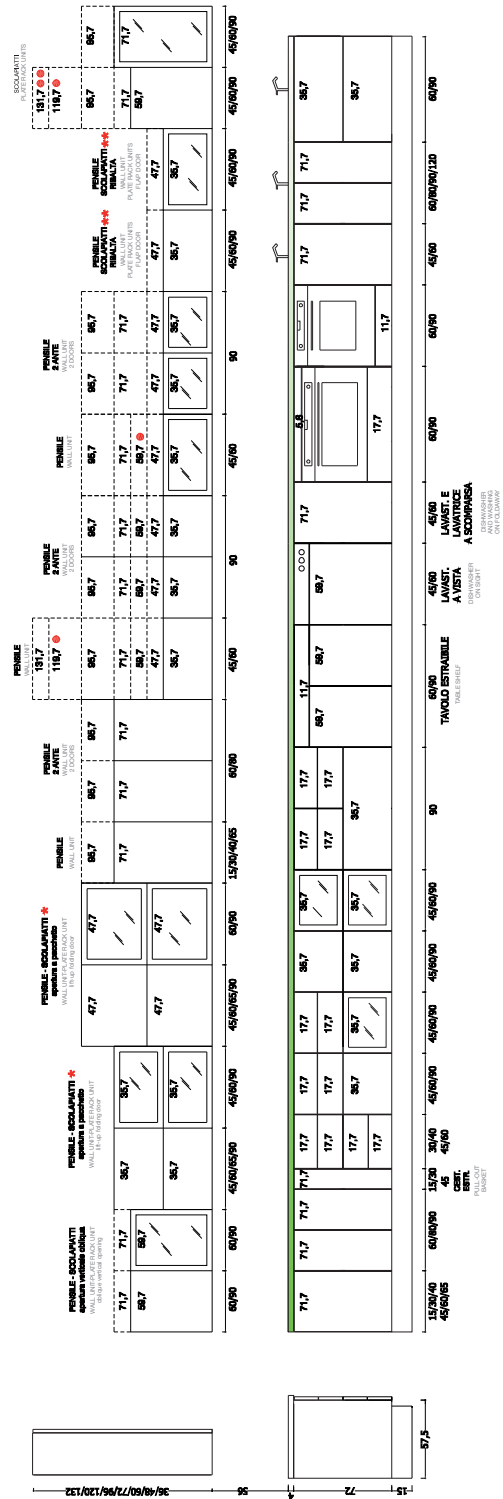

PENINSULAS - ISLANDS WITH DISHWASHER WITH BACK PANELS

In alternativa, lasciando la profondità di serie degli elementi, rifinire sempre con pannello posteriore fino a terra

Otherwise if keeping the standard depth, the back of the island must be refined with back panels down to floor
