# Let the finishing touches stand out with Regina

## History

In 1958, John Regina, owner of Regina Door & Design Corporation started a very successful business, where he worked in a small 1500 square foot garage in Valley Stream, NY. At that time, he operated one truck and did everything himself.

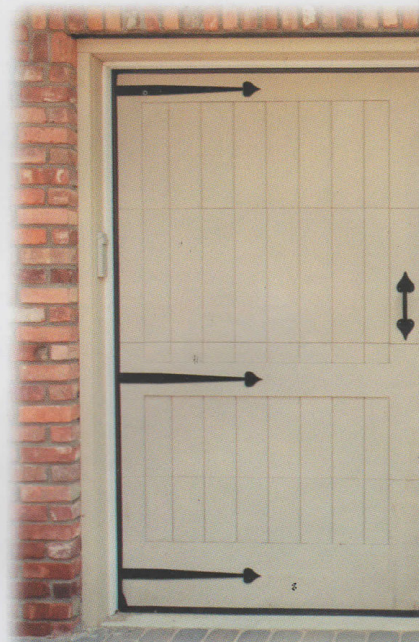

Today, John's proud son, Michael John runs the business in a 7000 square foot location, only one block away from its original site. Michael is following in his father's footsteps while expanding the business and is now operating several trucks to service all his customer's needs.

He has been president of the corporation since 1983 and dedicated to bringing a touch of elegance to every home and business he serves.

## *Elegance*

For many people, finding the right door to suit their home is a great challenge, which requires much time and effort. With so many variations of doors to choose from, Regina Door makes it as hassle-free as possible. As with garage doors for example, one can choose from having a swing door style adding more of a country feeling to their home, or simply the traditional folding door, which always looks nice on a home. Best of all, one can customize their door with windows for an added look of beauty and elegance. There are many varieties of designs, wood types and finishes to choose from. This brochure is just a sampling of what is available. We can customize your door as per your Architect's specifications as well as to your personal taste. Remember, adding the right door to your home, whether it is an entrance door or garage door, is just as important as dressing yourself for the perfect occasion.
