Calculating Kids Program

Calculating Kids is designed to prepare elementary and middle school students for high school math and beyond. Sessions will be held afterschool, twice a week, at the Unity Baptist Church in Braddock, PA. Interested students can simply show up and receive instruction from one of our teachers. Dates and times will be posted on our website at www.needld.org.

Goals of Calculating Kids include:

- Homework help
- Excelling in standardized testing
- Generating interest in math careers
- Preparing for SATs
- Introducing high school math
- Encouraging college attendance
