NEED’s STEAM Program encourages the pursuit of science and arts-related career paths through hands-on activities, lab experiments, and field trips. The program is open to middle school and high school female students interested in exploring the possibilities in STEAM fields. Classes are held on Saturdays and several field trips are scheduled through the school year.

Classes include activities such as:

- Construction of model cars, bridges, and roller coasters
- DNA and forensics experiments
- Computer programming
- Dance performance
- Music theory
- Medical research
