BUSINESS CAR LOANS MADE EASY - THE DEFINITIVE GUIDE INTRODUCTION

Obtaining business finance for any sort of vehicle can be a daunting task with so many products and so many financiers in the marketplace today. Our job at Fox Car Loans is to simplify and make easy your ability to obtain business finance for any sort of vehicle that you wish to purchase.

Business car loans are quite different to the standard personal car loan. Personal car loans are great for mums and dads, families & people working for wages

that want to purchase a car. However, when you're in business and you want to finance an asset like a car, a van, ute, or truck that will help grow your business or that will help generate more profit, it's very important that we use the most suitable finance product that you qualify for.

We use over 30 different lenders for business car loans. These lenders all have their own credit criteria and guidelines for which customers will be approved or which customers will be declined.

When dealing with Fox Car Loans, we offer a FREE 15-minute NO OBLIGATION LOAN ASSESSMENT, which gives us and our clients a very good understanding of which products and lenders will be most suitable for you.

In this e-book, I'm going to explain to you the types of vehicles that can be financed for business use. I'm going to discuss the different product types available for business car loans and we will also discuss many of the different requirements that as a business owner, you should have in place prior to applying for your business use car loan.

With this e-book, my goal is not to sell cars or rush you into getting a business car loan. Instead, I'd like to equip you with the information that everyone should know, but most people don't, when looking at business car loans. And when that time comes, you'll be ready to make a better and more informed decision.

WHAT TYPE OF VEHICLES CAN BE FINANCE FOR BUSINESS USE?

Many of our 30 business finance lenders have specific criteria for vehicles that will be funded for business use. Some have criteria of only wanting to fund very late model vehicles, so no more than 5 years old when you purchase them. Other lenders have criteria of not financing certain brands of vehicles. Other lenders have different criteria. So when applying for business car loans, it can be quite difficult as a business owner to identify which lender you should use. Some of our 30 lenders will finance any vehicle. And when I say any vehicle, I mean any vehicle. We finance the usual cars, vans, trucks, utes, motorbikes, plant and equipment, earth moving equipment – a whole host of different vehicles.

We also finance for business use some classic cars, unusual cars, vintage cars, American imports, and Japanese imports. The key criteria of many of our lenders is being able to demonstrate that the vehicle will genuinely be used for business use. If we can prove the vehicle will be used for business use, we have lenders that will fund anything on wheels.

Private or dealer sales are ALL easily financed.

BUSINESS FINANCE PRODUCT TYPES

There are several types of finance products available to business owners to fund their vehicles. These include but are not limited to chattel mortgage, lease, hire purchase, novated lease, and rent to own.

We will discuss rent to own in further detail later in this e-book. At this point, it's appropriate for me to mention that Fox Car Loans, which is a wholly own subsidiary of Fox Finance Group, is not an accounting firm and is not a financial planning firm, so we are unable to give specific advise in relation to choosing a product type that may be best for your business. We highly recommend discussing the product options with your accountant or financial planner to determine which would be the best product for your specific circumstances.

CHATEL MORTGAGE

Many of our clients choose the chattel mortgage product. The chattel mortgage allows businesses to claim back the GST portion from their vehicle purchase in the next BAS period. This can really help the business cash flow and of course you maintain the normal tax deductibility benefits of a business use car loan.

LEASE

A lease is a tax effective product that allows you to finance your new vehicle without any capital outlay. It's often commonly described as a rental contract.

HIRE PURCHASE

A hire purchase is a commercial finance facility where the customer hires the vehicle from the financier for a set period of time and a set repayment amount. There are options with this type of product that allow you to retain ownership at the end of the contract.

NOVATED LEASE

A novated lease is a product available to individuals who are on a paid car allowance as part of their income package.

These are the main types of finance products available to assist with the purchase of business use vehicles.

AFFORDABILITY QUALIFICATION REQUIREMENTS

“Are your financials up to date? A little behind? Or your Dog ate them?”

We have access to a variety of lenders and finance products that have differing affordability qualification requirements... let's now look at which affordability requirement suits you and your business best.

CUSTOMER WITH FULL FINANCIALS

Minor prior bad credit is OK

If your business has up to date financials which should include completed tax returns for two (2) or more years, then this should not only prove the business's affordability for a new loan, but should also qualify the business for the best possible deal from any lender.

LO DOC

Minor prior bad credit is OK

Lo Doc business car loans are for those clients that do not have fully up to date financials for 2 years. This is where the business may be able to provide some proof of income in one or more of the following ways:

- financials for only one year or
- BAS statements or
- Bank statements
- Interim financials completed in an accounting package such as Xero or MYOB
- Cash flow projection

Many lo doc loans have the same interest rate of a standard car loan.

NO DOC

Prior bad credit is OK

No Doc Loans are where your business is unable to provide any proof of income. Generally this type of loan will attract an interest rate premium.

Rent to Own

Prior
bad credit
is OK

Rent to Own products are perfect for small businesses who want to keep their risks low and their options open. Renting a business vehicle gives you some options that the other products don't. For example, trying a vehicle or testing a vehicle before you buy, Rent to Owns are generally a short-term contract such as 12 months so you're not committing your business to a long-term 5-year loan. With Rent to Own, you can upgrade or simply return the equipment at the end of 12 months. If you decide to buy the vehicle at the end of 12 months, generally you will get a rental rebate which is somewhere in the vicinity of the 75% of the rental you paid. Rental payments are also 100% tax deductible.

Prior
bad credit
is OK

There are varieties of reasons why some businesses will not qualify for a traditional bank or finance company loan. These reasons can include but are not limited to:

- bad credit for the business owner
- slow payment history for the business
- inability to prove income
- very low security values
- very unusual asset to be purchased

Our strong relationship with the finance company Fox Car Loans enables us, at Fox Car Loans, to obtain approvals for many businesses that would otherwise be unable to obtain finance for a vehicle. We understand that the continued growth and profitability of your business can be reliant on having the right business use vehicles. The team at Fox Car Loans will look outside the box to find a way to approve the loan. Sometimes, that might mean asking the customer to provide additional security or a guarantor. So if as a business owner, you are sitting there today reading this e-book and you are thinking to yourself, "I'm not going to be able to get finance for my business because of blah.. blah.. blah", then think again! Talk to one of our business car loans brokers at Fox Car Loans and let us find a solution for your funding needs.

- Best of all, we guarantee to keep you informed of your loan progress every step of the way. No more sitting at home waiting and waiting, wondering what is happening with your loan application.

So, how do you get the best deal for your new loan?... Call us now on 1300 665 906.

*You must provide us a written quote no older than 30 days and it must be personally addressed to you and confirm your unconditional approval with this lender.

**All you have to do is provide us with a copy of the new loan contract so we can calculate the correct interest adjustment figure for 30 days. We will also assist you to close or cancel the original loan if you request us to.

ABOUT THE AUTHOR

Dan grew up on the Sunshine Coast and he and his 3 boys now enjoy everything the Coast has to offer. Fox Car Loans started in 2006 and operates from their Head office in Maroochydore. Dan says, "Like me, my staff possess a real passion for achieving loan approvals for our customers. This is what separates us from other companies."

After graduating year 12, Dan Fox began his banking and finance career at Westpac Banking Corporation in Brisbane in 1988. He worked for the bank for seven years, excelling in his career and working his way up to management. Whilst working for Westpac, Dan also began his Bachelor's Degree in Business, with a major in Banking and Finance.

After leaving Westpac, he began his 10-year role with Avco Finance and Insurance (now known as GE Money). Dan held a few positions within this company, including branch manager of several finance branches, and area manager of the retail/interest free division.

At this point, Dan wanted to expand his finance experience and personal and professional achievements, and accepted a role as a finance broker with Capitalcorp Finance and Leasing in 2005.

In 2006, Dan established Fox Finance Group and then in 2009, Fox Car Loans was introduced to the finance industry with Dan explaining, "After over 20 years' experience with several finance companies, I decided to establish Fox Car Loans to offer good customers the second chance they deserve."

Fox Car Loans is wholly Australian owned and operated.
