Pots&Pans

design Jasper Morrison

Obiettivo quanto mai ambizioso per questa terza serie di pentole Alessi: affiancarsi alla "Cintura di Orione" di Sapper in rame e acciaio (super-qualitativa, ma anche super-costosa e prodotta in piccola serie: marchio "OFFICINA ALESSI") e alla "Mami" di Giovannoni in acciaio con fondo in alluminio (grande best seller, con un buon posizionamento di prezzo nella fascia medio-alta: marchio "ALESSI"), occupando una fascia di prezzo decisamente più bassa ma con eguale qualità di design e con la più grande attenzione alla funzione.

Al pubblico spetta come sempre il giudizio finale ma se posso anticipare la mia opinione Jasper ha fatto qui, affrontando il tema difficile della Pentolicità un piccolo capolavoro di design Super & Popular.

The aim of this third series of Alessi pots and pans is more ambitious than ever: to flank Sapper's copper and steel "La Cintura di Orione" (a top quality but also very expensive product produced on a small scale under the "OFFICINA ALESSI" trademark) and Giovannoni's steel and aluminium "Mami" (a best selling, average to high priced product produced under the "ALESSI" trademark) at decidedly lower prices but without compromising on design quality and functionality.

As ever, the public will have the final say, but, if I may give my own opinion, with this line Jasper has tackled the difficult theme of Potness creating a small masterpiece of Super & Popular design.

Alberto Alessi
