
During 2020, the United States has been trying to cope with three major crises simultaneously: (1) the corona-virus, or COVID-19; (2) the severe economic consequences of large-scale shutdowns; and (3) widespread riots, violence, and acts of civil disobedience. There is reason to believe all these events are perhaps being coordinated and used to undermine the constitutional government of the United States and the presidency of Donald Trump, who—despite his faults—has shown himself to be a patriotic American and a sworn enemy of the One World Movement, or the New World Order, and whose reelection seemed likely due to a booming economy.

Archbishop Carol Vigano, the former apostolic nuncio to the United States, wrote a letter to President Trump, praising him for fighting the so-called Deep State, or “children of darkness,” who “often hold strategic positions in government, in politics, in the economy and in the media.” These persons “want to demolish the family and the nation, exploit workers to make themselves unduly wealthy, foment internal divisions and wars, and accumulate power and money.” Also, he asserted, “It is quite clear that the use of street protests is instrumental to the purposes of those who would like to see someone elected in the upcoming presidential elections who embodies the goals of the Deep State and who expresses those goals faithfully and with conviction.”

Alleged visionaries—including John Souza, John Leary, Christina Gallagher, Father Michel Rodrigue, and Brother Enoch—have supposedly been warned of many things by Heaven, including: (1) the creation of the corona-virus in China was actually inspired by the devil; (2) the Deep State is using it in an effort to prevent the President’s reelection; (3) the Black Lives Matter movement is being manipulated by communists and socialists, who not only want to remove President Trump, but in fact completely take over our government; (4) a deadlier virus will occur in the fall, and will be a punishment for abortion; and (5) other laboratory-created viruses (some of them genetically-modified from earlier eradicated diseases) will be deliberately spread as a way of undermining governments, reducing the world’s population, and preparing for a One World government (which, according to some, will usher in the reign of the antichrist).

B. Vaccine: Solution or Enslavement?

Speaking of the Center for Disease Control, or CDC, author Donald McAlvany writes, “It is radically pro-vaccine and anti- any kind of alternative medical treatments. It will be the chief marketing agent for the new COVID-19 vaccine whenever it makes its appearance—probably over the next year or so. Don’t touch that vaccine! Like other CDC/Big Pharma/tecutical/ vaccines—it will probably kill more people than it saves.” This secular warning on the danger of the coming vaccine is seconded by private revelation; for instance, John Leary was allegedly told by Jesus, “Refuse to take any vaccines or chips in the body,” for such vaccines will actually awaken or cause new pandemics intended to reduce the world’s population—which has long been a goal of the global elite. Even worse, the vaccines will contain a microchip—similar to the Mark of the Beast described in the Book of Revelation (13:16); this chip is intended not only to track the movement of individuals, but ultimately to gain control over them.

A global program called ID-2020 is sponsored by the United Nations, WHO (the World Health Organization), the Rockefeller Foundation, and Microsoft. As a news release stated, “Vaccines are the perfect way to introduce digital identity to the world—especially infants. . . . a digital ID . . . would store the medical history of each individual [and] also be used to grant access to basic rights and services.” Bill Gates, the founder of Microsoft, stated that “digital certificates will be used to verify and track those who have received the coming COVID-19 vaccine . . . to determine who has recovered [from the virus], who has been vaccinated recently, who can do business, who can travel, and [who] can get services.” Ominously, the enzyme needed to make Mr. Gates’ vaccine microchip implant work is named Luciferase, and its patent number is #060606 (666?).
Furthermore, as Mr. McAlvany notes, “Researchers [at MIT] have developed an ink that can be safely imbedded in the skin alongside the vaccine itself, and it’s only visible using a special smartphone camera app and filter. . . . [this] tracking system could greatly simplify the process of maintaining accurate vaccine records on a super large scale. . . . Traveling abroad by air or boat, on domestic or international flights, getting a passport or a driver’s license, buying a gun, checking into a hotel or hospital, or seeing a doctor will all be predicated on proving you were vaccinated” (McAlvany Intelligence Advisor, May 2020). The biotech firm ApiJect is creating a high speed supply chain for pre-filled syringes. By the end of 2021, it plans to have the capacity to manufacture 330 million pre-filled syringes per month—meaning every American could theoretically receive a new vaccine every thirty days. Each syringe will come with its own unique radio-frequency identification (RFID) chip or near-field communication (NFC) tag that can be tracked in real-time by healthcare workers, government agencies, or other entities. The Book of Revelation speaks of a beast with ten horns and seven heads—presumably the antichrist, who will blaspheme God and wage war against His people, temporarily gaining control over the entire earth. A second beast—the false prophet—will serve it, and “It forced all the people, small and great, rich and poor, free and slave, to be given a stamped image on their right hands or their foreheads, so that no one could buy or sell except one who had the stamped image of the beast’s name or the number [666] that stood for its name” (13:16-17).

C. Where Is the Church?

Bishop Athanasius Schneider, an internationally-known auxiliary bishop from Kazakhstan, stated in an interview that “My general impression is that the prevailing majority of bishops reacted precipitously and out of panic in prohibiting all public Masses and . . . in closing churches” [in response to the corona-virus]. Such bishops acted more like bureaucrats than shepherds, for “In focusing too exclusively on all the hygienic protection measures, they have lost a supernatural vision and have abandoned the primary role of the good of souls.” Bishop Schneider added that “The current situation provides sufficient reasonable grounds to think that we are at the beginning of an apocalyptic time, which includes divine chastisements. . . .” Similar assertions have been made by Bishop Lazarus You Heung-sik of South Korea, among others.

However, many Catholic bishops reject the idea that the pandemic could be a chastisement from God, or something Heaven is using to prompt widespread repentance. This may be why most efforts to protect religious freedom during the shutdown (except for the Catholics bishops of Minnesota, and a few others) have been undertaken by Protestant religious leaders and the Trump Administration. As Jesus allegedly complained to John Leary, “Where are My Church clergy and laity who should be protesting to open the churches?” (May 16, 2020), and “Your people and many priests are allowing the atheists to control your lives in a free country” (June 4, 2020).

Furthermore, as Our Lord supposedly told Brother Enoch, “Signs and signals are becoming more noticeable in the whole Creation; Heaven is exhausting all resources to save the greatest number of souls, but this ungrateful humanity continues to turn its back on God’s calls” (January 23, 2020). Jesus also allegedly warned, “The emissaries of evil who secretly rule the destiny of the world and call themselves the Illuminati, already want to destabilize the world economy, to start the implantation of the Mark of the Beast, the microchip. The viruses, plagues, pandemics, scarcity, famine, the fall of the economy, the war and the schism [division in the Church], will be the beginning of the pains that humanity will have to go through” (March 23, 2020).

Sadly, most Americans don’t know, and don’t really want to know, what’s happening all around them, and even most Catholics aren’t taking Heaven’s warnings seriously. Thus, it’s urgent for us to offer fervent prayers and sacrifices for the conversion of sinners, the salvation of souls, and the possible lessening of whatever chastisements may be coming. However, this must be done in a spirit of trust, not of fear. Jesus is the Lord of history, and He has assigned to His Mother the central role in defeating the evil one and his servants—and within our lifetimes we will witness the triumph of Our Lord and Our Lady’s Sacred and Immaculate Hearts.
