1.	Cars If you sell your car or any private asset to your company, it can be taken by a liquidator if your company fails.			
2.	Protection You can protect yourself from loss of assets owned by your company by taking a debenture over the company assets.			
3.	Shareholder remuneration Company shareholder/employees must be able to justify remuneration credited to them. Unjustifiable income is a dividend which requires directors to comply with the "solvency test".			
4.	Fringe benefit tax You can avoid paying Fringe Benefit Tax by simply making an annual adjustment to your accounts for the benefit. This saves paper work because Fringe Benefit Tax returns are no longer required and we do not have to show the amount of the benefit in your accounts. If you pay Fringe Benefit Tax, we recommend you discuss this matter with us.
