For as long as you own and reside in your owner occupied single family home ("Lifetime") DuraLite Aluminum Products, Inc. (DAP) will, upon notice as required herein, either repair or provide replacement components as needed to correct any of the following conditions when directly caused by a defect in the DuraLite (DAP) window product as manufactured:

Frame: Chipping, cracking, peeling, blistering. Factory painted exterior coatings are guaranteed for (10) years under normal conditions from peeling, blistering and significant discoloration. Non-factory applied coatings will void *entire* window warranty.

Hardware & Parts: Component failure, under normal usage and application.

Insect Screens: Frame Rust or Mesh Size. DAP will replace any window screen frame and mesh that is defective in workmanship for a period of one (1) year after date of manufacture.

(punctures or tears are not warranted beyond the opportunity to inspect at initial receipt of product)

Commercial, Rental, or Multi-family Property:

For a period of ten (10) years from date of DAP window product sale, DAP will upon notice from the property owner as required herein, either repair or provide replacement components as needed to correct any of the above conditions when directly caused by a defect in the DAP window product as manufactured. This shall apply to all DAP windows installed in properties other than owner-occupied single family homes.

Series #450 Limitation: The warranty coverage on the DAP Series #450 (*basic aluminum insulated window*) shall be for a maximum of ten (10) years from date of sale.

In the event of a sale of the home within five (5) years of initial product installation, this warranty is transferable to the first subsequent purchaser free of charge. The **Warranty Transfer Form** document must be received by DAP within (30) days from sale of home. No rights under the warranty may be otherwise transferred or assigned. **The Commercial, Rental, or Multi-family** warranty is made solely to the owner of the property on the date of sale of DAP product and is neither transferable nor subject to assignment.

Limitations on Scope: DAP shall have no obligation to address any condition not directly caused by a defect in its product as manufactured. Excluded conditions include, but are not limited to, those affected by: lack of product maintenance, misuse, mishandling, or damage to the product; extraordinary application of product, improper installation or reinstallation; alterations or modifications including but not limited to, the application of films, security systems or window treatments; sudden change of barometric pressure, aging, fading or weathering; inert gas fill percentages or retention, conditions which exceed product capacity, natural disaster related damage such as but not limited to: fire, lightning, hurricanes or tornadoes; building settlement, construction defects; slight curvature of glass, glass deflection due to temperature or barometric pressure, glass imperfections allowable under ASTM C1036 or C1048, and any other element outside of DAP control.

Product Ratings: DAP products are often designed and tested in accordance with required standard procedures established by industry associations such as the American Architectural Manufacturer's Association (AAMA) and the National Fenestration Rating Council (NFRC). These measure performance of sample products in a laboratory-type setting. To pursue consistency DAP manufactures its products for sale utilizing the same methods and materials as in fabrication of a product for testing. All product components and manufacturing processes, however, involve an inherent range of tolerance. These and other factors can result in some variance among individual product performance.
