

Infodev can give you the answers to your questions.

Are there any seats available?

Is the compartment full?

Is there space left to stand or to sit down in this coach?

Is there any space left for luggage?

Which door should the user be boarding from?

How many people are in each vehicle and each compartment?

Are there a lot of users with bikes using the service?

INTRODUCING

Technology

THE NEW GENERATION OF DETECTION

Discover how we can detect passengers and objects in only **0.083 seconds.**

INTRODUCTION

Infodev EDI is proud to present its new detection technology; Alliim®. Based on AI technology, **our new system combines our proven APC algorithms with an advanced AI approach, putting Infodev at the forefront of innovation.**

Infodev technology captures multiple images of each train, bus or vehicle compartments, and it does so every second. Those images are processed and analyzed in real time with Infodev's A.I. based detection algorithms to **measure the number of passengers standing, the number of free seats available and also to detect objects**, such as luggage. This is realized for every compartment or vehicle.

Our real time counting data is highly valuable for both your passengers and your crew, while our counting historic data is a must for planning your operations.

With Alliim®, you can access valuable information you need in order to make appropriate decisions for your operations.

DISCOVER MORE ABOUT THE NEEDS OF YOUR PASSENGERS.

Learn more about your passengers while respecting their privacy. With Infodev's Alliim® Technology you can get access to highly valuable data in real time:

- Occupancy levels
- Numbers of passengers
- Number of seats available
- Number of suitcases in the vehicle
- Number of bicycles in the vehicle
- Number of wheelchairs

GDPR COMPLIANT

Data safety and passenger privacy is our priority.

Data privacy plays a major role in the development process of our system. This new technology complies with Europe's General Data Protection Regulation (GDPR) and ensures the anonymity of your passenger and the security of your data. Alliim® gives you the information you need to take decisions while respecting the privacy of passengers.
