SECURITY CONSULTANCY. CONFLICT MANAGEMENT.

BRINGING BALANCE AND
SECURITY TO YOUR ORGANISATION

Our purpose is to **INSPIRE** individuals and organisations to **LEARN** and **GROW** personally and professionally

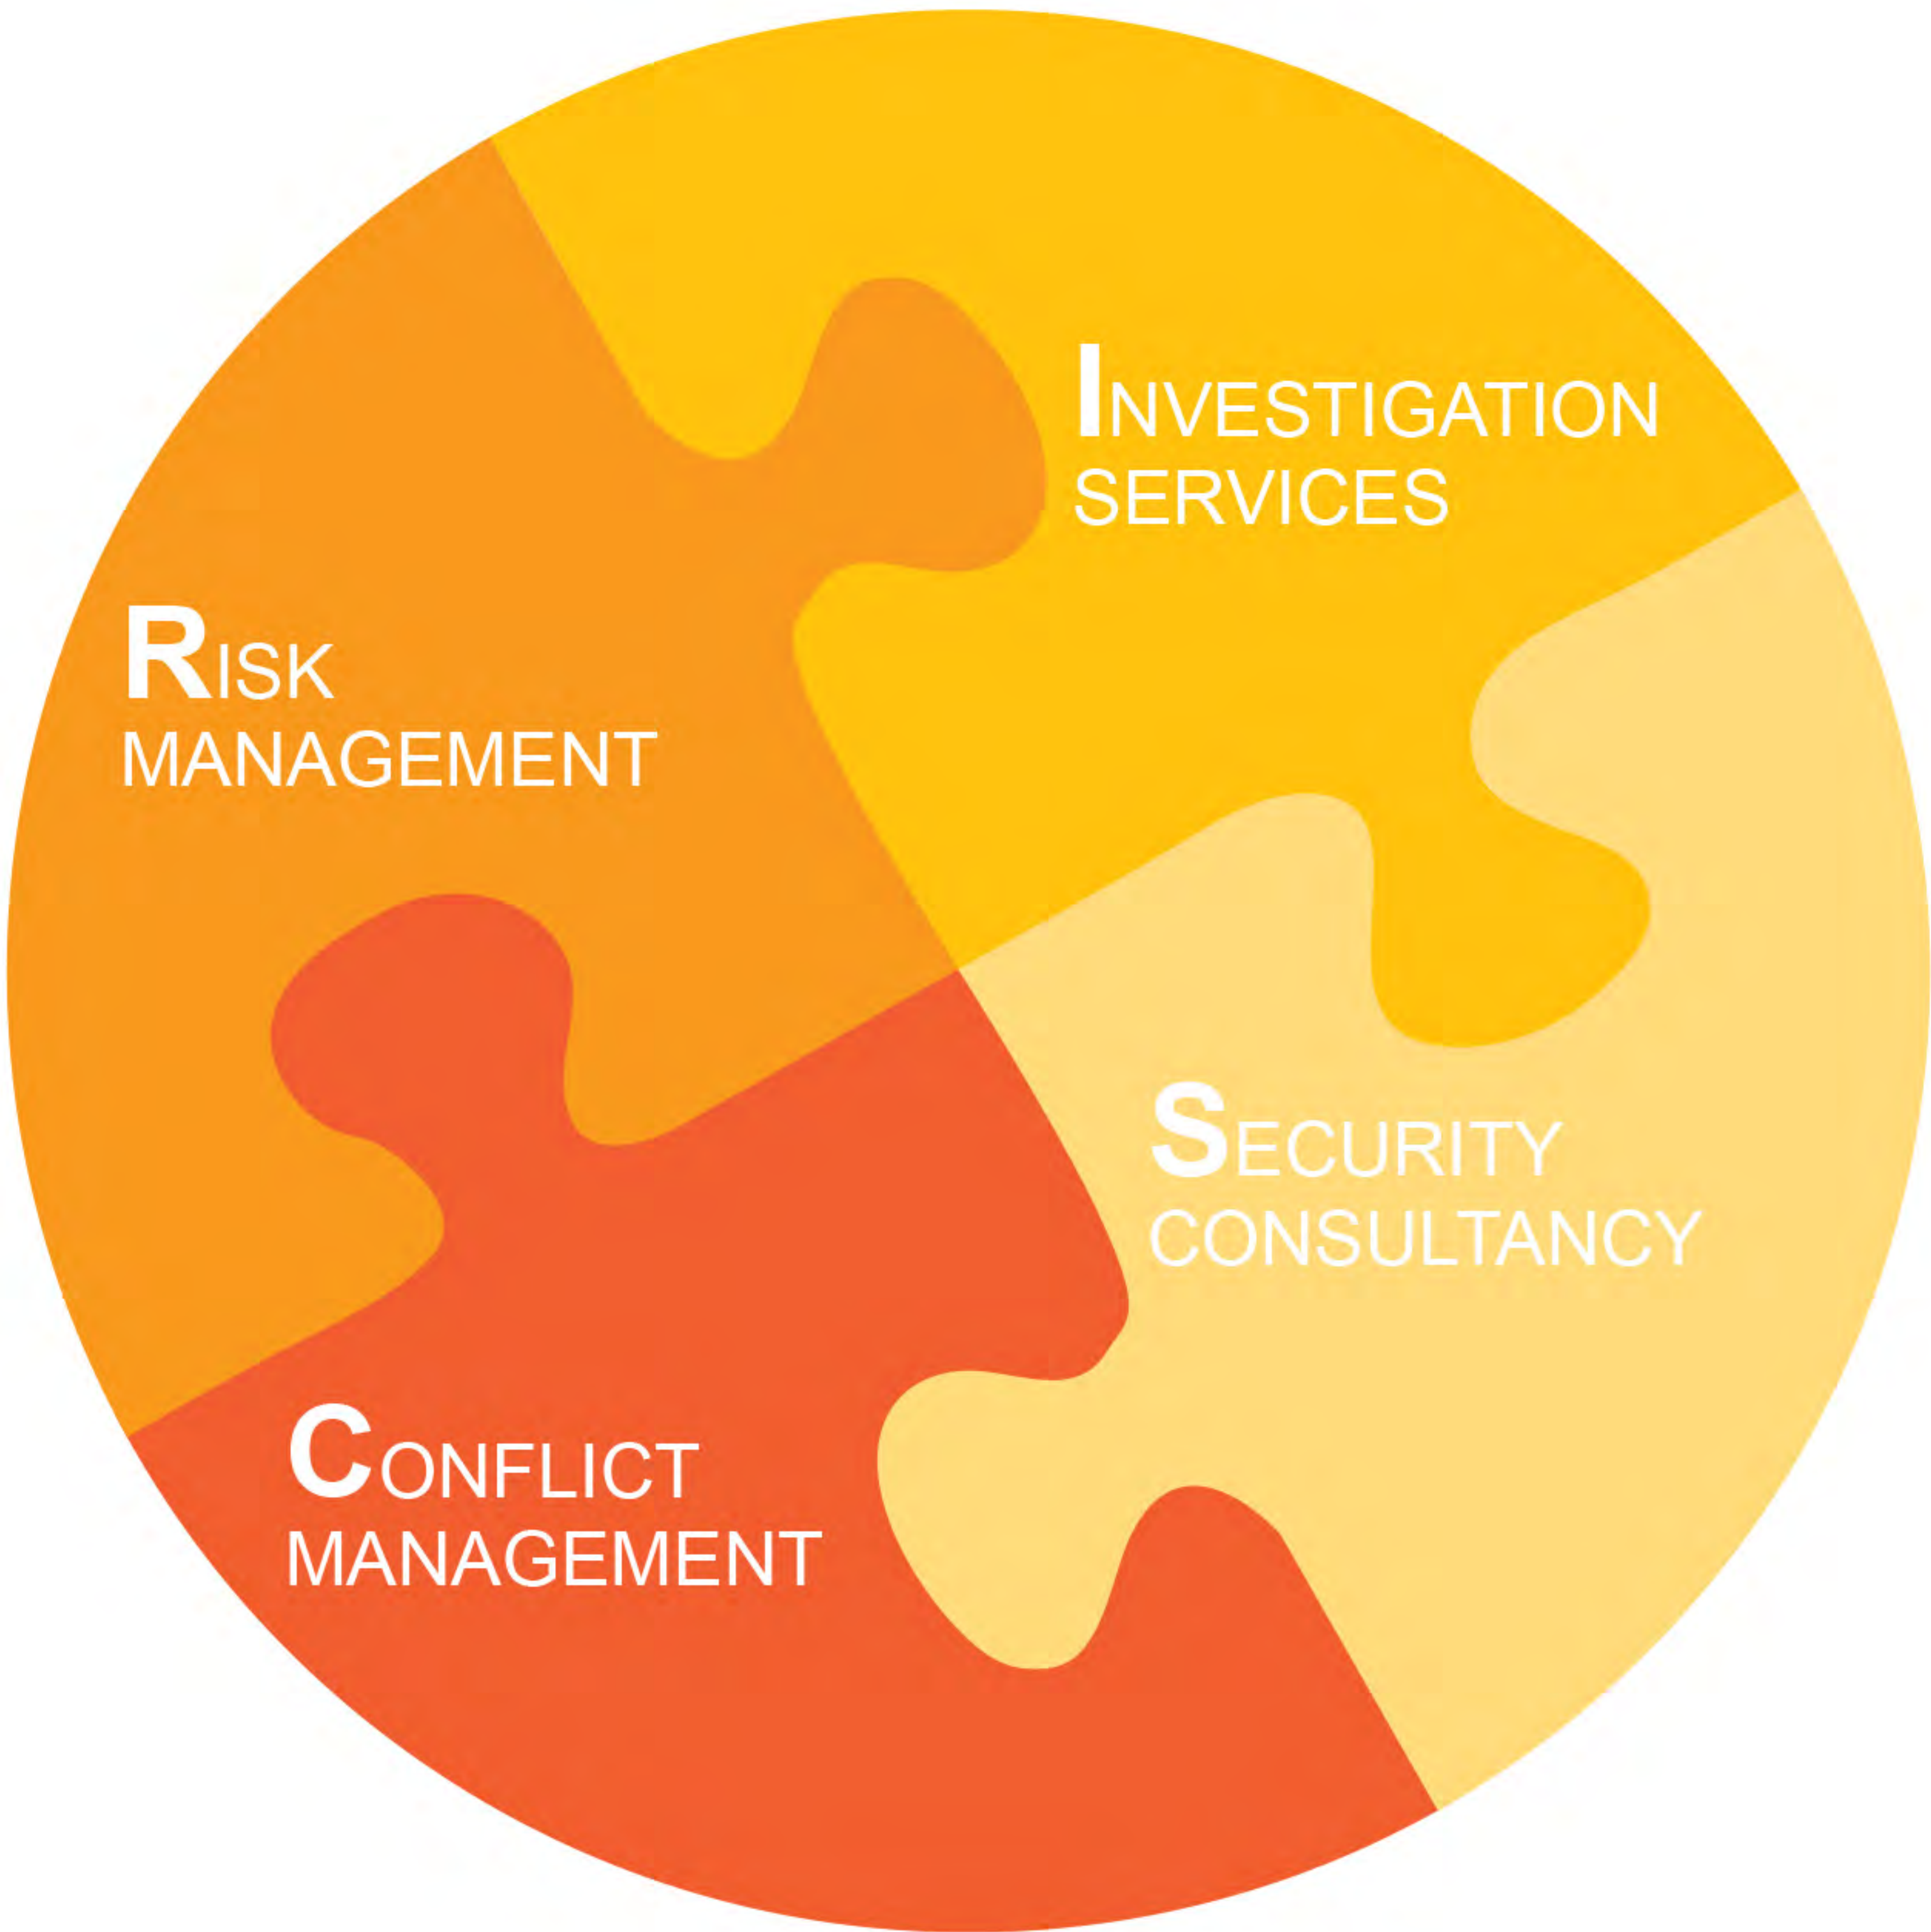

RISC consultants have vast security, loss prevention and risk management experience working with blue chip companies and government agencies.

We will give you measured objective feedback based on practical experience to protect your assets and profits.

RISC Associates professional trainers have all had front line operational experience bringing your training alive using real life object lessons from an accelerated learning platform.

Our conflict management and physical intervention programmes have been designed by retired members of the UK elite special forces, scientifically proven and pressure tested in the real world.

We work in partnership with you to identify the most cost-effective solutions to protect your assets and manage your remedial risks.

RISC Associates are conflict management, physical intervention, security and risk management specialists

At RISC all of our consultants are subject matter experts in their own fields and work in partnership with you to provide a comprehensive range of services to deliver your risk management needs.

RISC Directors have combined 55 years of practical corporate security and risk management experience at all levels in various sectors of industry.

RISC Associates adopt a customer-first approach focused on developing long term business partnerships. We are authorised Representatives of H2H Defence, delivering a scientifically proven approach to modern conflict management and self-defence – empowering your people through confidence development.

Our Approach

We work in collaboration with our clients to design and deliver specialist training programmes, provide consultancy services and introduce specific asset protection initiatives into your business to;

- **Protect your people and property**
- **Reduce your losses**
- **Improve your profits**

We achieve this by creating an overall (holistic) approach to your risk management strategy, giving you tools to proactively manage your identified threat and risk exposure on an on-going basis.

Our goal is to maximise your resources therefore increasing your profits. We recognise that changing behaviour does change results.

Core Values

- We deliver **excellent customer service** putting our clients first
- We create and maintain a **partnership** with our clients
- We demonstrate **professionalism** and **integrity** in everything we do
- We maintain **confidentiality** in every aspect of our service
- Whilst **competitive**, we will always direct our business on **quality** of service

Working with RISC Associates you will benefit from an entirely open and honest service.

CONFIDENCE MAKES THE DIFFERENCE

CONFLICT MANAGEMENT AND PHYSICAL INTERVENTION

RISC Associates are authorised representatives of H2H Defence delivering a uniquely different approach to modern conflict management and self defense.

Rapid Action Initiated Defence (RAID). The System has been designed by retired members of the UK Elite Special Forces. It has become one of the fastest systems to teach and learn. It has been adopted by both Military and Civilian sectors.

This unique system has been designed to follow a systematic 5 step process, which students can learn and retain in such a short space of time.

The RAID system has been created to give you a balanced recipe, to successfully defend yourself and provide heightened confidence in dealing with violent confrontations. RAID is unbiased of gender, age, ability or physical stature.

RISC Associates instructors have attended an intensive residential instructor's course and are fully qualified to deliver the full RAID system or particular modules from the system appropriate to your specific needs.

Duty of Care

Within your business ask yourself are you doing enough to prevent and manage violence or anti-social behaviour in your workplace and do you provide adequate protection to lone workers? If the answer is no then you need to read the leaflet provided by the HSE or contact us to discuss how we may put the care you need into the duty you have to your employees.

Security Operations

Following RAID principles security operatives will be able to deal with difficult situations and protect themselves if they have to and not break the law. They will also be able to justify their actions in court as courtroom survival is part of our package.

Our conflict management and physical intervention programmes have been designed by retired members of the UK elite special forces, scientifically proven and pressure tested in the real world

SECURITY AND LOSS PREVENTION TRAINING

RISC Associates offer our clients a wide range of courses to inspire individuals and organisations to learn and grow.

As the security and loss prevention disciplines continue to develop and individuals in this specialist sector aspire to higher professional standards, RISC Associates are well positioned to support your employees Continuous Professional Development (CPD).

We deliver a range of security and loss prevention related courses:

- **Security Guarding**
- **Door Supervision**
- **CCTV Public Space Surveillance**
- **Retail Specific Modules**
- **Weapons Awareness**
- **Security Searching**
- **Business Loss Prevention Awareness**
- **Investigation and Interviewing**
- **Covert Surveillance Techniques**
- **Tailored courses designed for your specific environment**

All RISC Associates professional trainers have practical experience in front line security, loss prevention and investigation operations. This experience is a significant factor in bringing the subject matter alive during the course delivery (you can't replace actual experience).

We will work in partnership with you to develop the best solutions to suit your particular needs. This may mean looking at the security and loss prevention topics in isolation or in conjunction with other courses and services we offer, giving you solutions to a wide range of risk management challenges.

CONSULTANCY SERVICES

RISC Associates consultants have many years of practical security, loss prevention and risk management experience in a variety of business environments.

As a result we are able to assist you in the identification of key risk exposures within your business and offer solutions to reduce loss and protect your assets.

Key areas in which we can support and advise you are as follows:

At RISC we will work in partnership with you to develop the best solutions to suit your particular needs.

This may mean looking at our course topics in isolation. In many cases a broader approach works best - utilising the full RISC product range to create a tailored approach to your overall risk management knowledge and individual or corporate development plans.
