

Shaderite

Window Furnishings

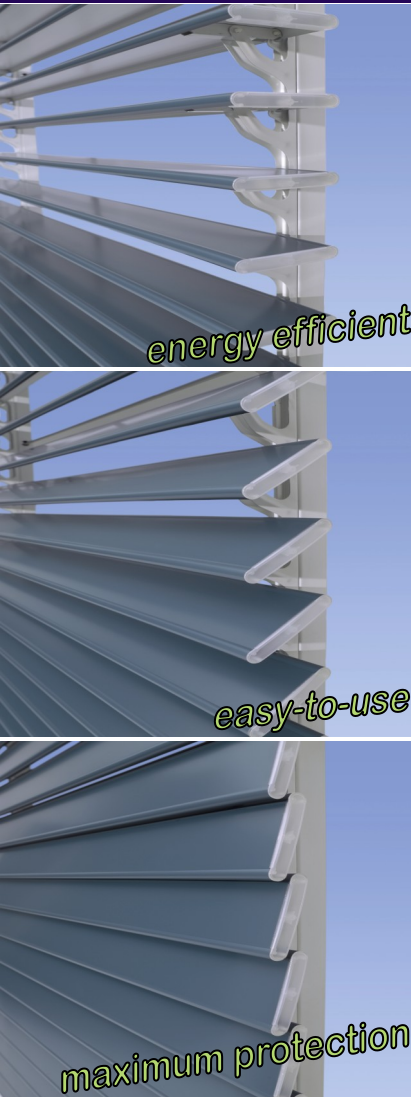

The finest
blind of
its kind

by

Filtalite Louvre Awning

The Shaderite Filtalite is a horizontal louvre awning that can be fitted in front of a window or door, or as protection on the side of an exposed area. The Filtalite is available with fixed or adjustable blades using a hand winder that can fitted internally or externally.

All structural components & panels are coated using the Hunter Douglas COLOR-COTE® Process. Combining both privacy & heat reduction whilst allowing light & air to filter through. The blades are available in a large colour range from earth tones to urban pearl silver. Its application is almost unlimited & can be styled to compliment any home.

Features

Durable.

Functional.

Energy efficient.

Exact installation.

Hunter Douglas
COLOR-COTE® Process.

Australian made.

Benefits

Aluminium offers a higher resistance to corrosion & weathering, with minimal maintenance for your convenience.

In both fixed or adjustable, the easy-to-use Filtalite allows cooling breezes or maximum privacy & protection

Can deflect up to 90%* of the heat normally transmitted through a window.

Up to 8 installation configurations available allowing versatility for any type of home.

The HD COLOR-COTE® coating process consists of top coats over resistant primers. The result is one of the finest & most durable modern coatings available.

Supporting Australian industry.
