

COVID 19 – BTA Update #4 (March 19)

I hope today's BSD COVID 19 Update #6 has put many of our members at ease.

The Division's decision to allow all non-essential staff to work from home will go a long way in helping to stop the spread of COVID 19. I would like to commend Senior Administration for making this difficult decision.

The ability to work from home addresses many of the questions and concerns I have been receiving. It may, however, bring attention to some new questions about what working from home looks like.

Unfortunately, I will not have those answers for you, but encourage you to share your questions with me and I will do my research to find out everything I can. Any and all questions are important questions to help us all understand how this will unfold.

To those members who are deemed to be "essential services", I assure you, I have and will continue to advocate to ensure all safety precautions are in place. If you have concerns, or require accommodation, please reach out to me. I am here to serve you!

I continue to encourage all members to seek the support available in coping with stress associated with this new reality. We are all in this together!
