FEATURES

New design lens with 30 lens elements for full 12m x 12m (40ft. x 40ft.) coverage

Improved False Alarm Immunity

High RFI Immunity – 30V/m up to 1GHz

Selectable pulse count

White light protection, pigmented lens

Optical protective sleeve

Automatic Temperature Compensation

Internal Cable Duct

Ample wiring space for easy installation

Compact, attractive design

Complies with the UL, CE and FCC regulations.

The new eurowsec range of PIRs provide 12m x 12m coverage with excellent false alarm immunity.

The V40 range has been especially designed to provide the highest levels of catch performance and false alarm immunity.

With three models to choose from, the V40D PIR, V40Q Quad PIR and the V40 PI PIR incorporating Pet immunity upto 75lbs (33kgs). These models are a unique blend of high quality and outstanding value, offering the ultimate solution for all your residential and commercial installations.

In addition to exceptional performance the V40 range has been designed with the installer in mind. With increased cable space and a more rigid case the V40 ensures ease of use in an installation friendly design.

The latest surface mount technology is used in the V40 range to ensure the highest levels of quality are maintained.
