The eurowsec control panel with its attractive keypad and comprehensive features, ensures all your security requirements are fulfilled now and well into the future.

The eurowsec CP8L LCD control panel has recently undergone a number of severe test routines by one of the leading trade magazines. These tests covered features, electronics, casing, value and reliability. As a result of these tests the eurowsec CP8L was shown to be the basis of a sophisticated and flexible system.

APPLICATION

The eurowsec CP8L with 8 fully programmable zones provides capacity more than sufficient for most domestic and small commercial installations. The provision of a 32-character LCD remote keypad with fully programmable zone and user descriptors, plus the option of time & date stamp event log, make this an attractive system. The CP8L can support upto 4 keypads and optional dedicated digital communicator.

AESTHETICS

The aesthetics of the eurowsec CP8L control panel are designed to blend in with almost all décor and surroundings, making this the ideal security partner.
