

## **WE ARE EXTENDING OUR WEEKEND OPENING HOURS!**

From Saturday 10th February 2018 our Newark branch will be open for appointments throughout the day on a Saturday and Sunday.

Our own emergency vets will be still be on call for large animal and equine clients as well as for people who would prefer an emergency call-out to Southwell or home visit.

**Our Newark Surgery will be open 8am to 5pm Saturdays and 10am to 4pm Sundays**

If you are registered with one of our branches you are registered with all of them, so appointments are not limited to only those who normally use the Newark surgery.

We will have a large number of appointment slots the can be booked in advance for routine appointments and a number of "emergency" slots that will open up to be booked on the day for those that need them.

There will be no additional fee for weekend appointments, but the normal out of hours fees will apply for home visits, calls to Southwell, large animal/equine visits and any calls once the practice has closed.

We hope this change will enhance our service and take away the worry of what can wait until Monday and what needs a weekend visit.
