

FOREST BAY

TR-138 in white with colonial windows

Timeless, Stylish & Affordable!

*TR-II in earthtone with
colonial windows*

The Forest Bay collection of insulated thermal doors combines the stylish appearance of woodgrained embossment with the rugged durability of heavy gauge steel thermally bonded to dense polystyrene insulation. This collection delivers thermal efficiency available in three door thicknesses – 1 3/8, 2 & 3 inch, while offering a full range of colors and window options. Strength and beauty come together in one package tailor made to fit your tastes!

BIDIRECTIONAL WOODGRAIN DOORS

The *beauty & style* of handcrafted wood panel doors without the high maintenance. North Central Door is pleased to offer three bidirectional woodgrain finishes, giving a realistic, luxurious look.

TR-138 in medium oak

WOODGRAIN DOOR DETAILS

- Available in Walnut, Medium Oak and Golden Oak, these finishes simulate an authentic wood panel constructed door with contrasting woodgrain patterns between stiles and panels.
- Five long panel window options & seven short panel options are available in each color.
- Stucco embossment provides a textured appearance without diminishing the woodgrain accents.

- Wind load package available.
- Keyed or slide lock set.
- Nylon rollers for quiet operation.
- Window glass available - double strength or insulated.
- Environmentally friendly polystyrene insulation.

WHY CHOOSE NORTH CENTRAL DOOR?

North Central Door Company understands that you have high standards when it comes to enhancing the appearance of your home. That is why we have been uncompromising in maintaining the high quality of our products since our beginning in 1966.

CONSTRUCTION

- 3-layer thermal door with section thickness available in 1 3/8", 2" and 3".
- Polystyrene insulation bonded to 26-gauge steel skin providing thermal protection to the edge of each section.
- Uniquely designed tongue & groove section joints create a weather-resistant seal against rain, snow and wind.
- Durable PVC seals provide a continuous thermal break on all section joints, reducing thermal transmissions.
- 18-gauge hot-dipped galvanized stiles are carried the full height of the sections providing superior strength and durability compared with commonly used hinge pads.
- Hinges are 14-gauge, hot-dipped galvanized steel for lasting durability.
- Heavy-duty "U" shaped bottom weather seal helps protect against elements.
- R-values per section thickness: 1 3/8" = 6.9, 2" = 8.8 & 3" = 15.1
